| ndependence   | The student can only execute<br>the tasks properly after<br>repeated detailed instructions<br>and with direct help from the<br>supervisor.  |       | The student needs detailed<br>instructions and well-defined<br>tasks from the supervisor and<br>the supervisor needs to<br>monitor the student to see if<br>all tasks have been performed.   |        | Student depends mainly on<br>supervisor for setting out the<br>task, but the student performs<br>them mostly independently.   |          | Student plans and performs<br>tasks mostly independently,<br>asks for help from the<br>supervisor when needed.   |              | Student plans and performs<br>tasks independently and<br>organises their sources of help<br>independently.  |                      |
| nitiative and<br>rreativity                               | Student shows no initiative or<br>new ideas at all.   |       | Student adopts initiatives<br>and/or new ideas suggested by<br>others (e.g. supervisor), but<br>cannot motivate/explain the<br>rationale of these<br>initiatives/ideas themselves.   |        | Student shows some initiative<br>and/or together with the<br>supervisor develops one or<br>two new ideas on minor parts<br>of the research.   |          | Student initiates discussions<br>on new ideas with supervisor<br>and puts forward their own<br>creative ideas on hypothesis<br>formulation, design or data<br>processing.  |              | Student develops and<br>implements innovative<br>hypotheses, methods and/or<br>analysis of information/data.<br>Possibly the idea for the<br>project has been formulated<br>by the student.   |                      |
|   | rseverance and adaptivity   |       |  |        |   |          |  |              |   |                      |
| Commitment/<br>perseverance                               | Student is not motivated.<br>Student escapes work and<br>gives up regularly.  |       | Student has little motivation.<br>Tends to be distracted easily<br>and shows little perseverance.  |        | Student is motivated at times,<br>but often refers to the work as<br>a compulsory task. Is<br>distracted from research work<br>now and then.  |          | The student is motivated and<br>shows ownership of the<br>project. Overcomes an<br>occasional setback<br>independently.  |              | The student is very motivated,<br>shows ownership, and<br>overcomes setbacks<br>independently. Student goes<br>at length to get the most out<br>of the project (within the<br>planned period).  |                      |
| Insight in the<br>organization and<br>adaptation capacity | Student does not adapt to the<br>organisation and gives an<br>impression of apathy or is<br>often involved in disputes or<br>arguments.   |       | Student shows no insight in<br>functioning of the<br>organisation. Student<br>repeatedly has difficulty to get<br>things done within the team<br>(e.g. receiving information,<br>organizing materials or<br>facilities, etc).<br>Student does not adapt and<br>remains passive or<br>negative. |        | Student is able to indicate<br>the responsibilities within their<br>own team.<br>Student gets things done<br>within the team (e.g.<br>gathering information,<br>organizing resources) but<br>only via supervisor.<br>Student accepts how things<br>go within the new work<br>environment without further<br>reflection. |          | Student is able to indicate<br>the responsibilities of the<br>different units within the<br>organization.<br>Student is able to get things<br>(e.g. receiving information,<br>organizing material facilities,<br>etc.) done within the team<br>independently .<br>Student is able to adapt to<br>the new work environment<br>in a productive and<br>interactive way. |              | Student knows how changes<br>are realized in the<br>organization.<br>Student is able to<br>independently get things done<br>that affect the whole team.<br>Student adapts well to the<br>work environment, while<br>reflecting on contributing<br>with their personal view.         |                      |
| L.3 Receiving and pr                                      | oviding feedback  |       |  |        |   |          |  |              |   |                      |
| Receiving feedback  | Student does not follow up on<br>suggestions and ideas of the<br>supervisor. Shows a defensive<br>attitude to feedback.   |       | Student follows up on some<br>suggestions and ideas of the<br>supervisor without any critical<br>reflection.   |        | Student accepts feedback from<br>supervisor. Incorporates most<br>or all of the supervisor's<br>feedback adequately but<br>without much reflective<br>discussion.   |          | Student welcomes feedback<br>from supervisor and asks for it<br>when needed. Student reflects<br>on feedback and incorporates<br>changes after engaging in a<br>discussion.  |              | Student seeks and welcomes<br>feedback from supervisor and<br>other staff members or<br>students.<br>Student critically reflects on<br>feedback, uses it as a starting<br>point for further discussion<br>and proposes alternatives   |                      |
| Providing feedback  | Student does not provide<br>feedback to others, even when<br>asked for.   |       | Student only provides<br>feedback when asked for.<br>Feedback is general, without<br>supporting examples or<br>without suggestions for<br>improvement.   |        | Student provides well-founded<br>(with examples), specific<br>feedback when asked for.  |          | Student spontaneously<br>provides balanced (positive<br>and negative), well-founded<br>(with examples), specific<br>feedback.  |              | Student actively engages in<br>discussion with others to<br>deliver balanced (positive and<br>negative), well-founded (with<br>examples), specific and<br>constructive feedback.<br>Student checks whether<br>feedback is clear for receiver.                                       |                      |
| 1.4 Development of  | knowledge and skills  |       |  |        |   |          |  |              |   |                      |
|   | Knowledge and skills remain<br>insufficient (in relation to the<br>prerequisites) and the student<br>does not succeed to take<br>appropriate action to remedy<br>this.                                      |       | Students' progress in<br>knowledge and skills is limited<br>and requires extensive<br>guidance by the supervisor.  |        | The student adopts knowledge<br>and skills as they are<br>presented during supervision.   |          | The student adopts knowledge<br>and skills independently, and<br>asks for assistance from the<br>supervisor if needed.   |              | Students explores solutions<br>independently and seeks<br>appropriate knowledge and<br>skills required.   |                      |
| 1.5 Work on persona                                       | al learning outcomes<br>Student gives no attention to   |       | Student tries to improve on  |        | Students works on some of   |          | Students works on personal   |              | Students manages their  |                      |
|   | the personal learning<br>outcomes.  |       | Student tries to improve on<br>personal learning outcomes<br>but is not able to evaluate<br>progress.  |        | Students works on some of<br>their personal learning<br>outcomes and recognizes<br>progress.  |          | Students works on personal<br>learning outcomes and<br>critically evaluates progress.  |              | Students manages their<br>development on personal<br>learning outcomes effectively.<br>Student reflects on progress<br>and uses that to adjust the<br>work on personal learning<br>outcomes.  |                      |
| 1.6 Time manageme   |   |       |  |        |   |          |  |              |   |                      |
|   | No time schedule made, or<br>time schedule lacks all detail.<br>Final version of report or oral<br>presentation more than 50%<br>of the nominal period overdue<br>without a valid reason (force<br>majeure) |       | No realistic time schedule, or<br>repeatedly ignoring the time<br>schedule, or mostly dependent<br>on supervisor for keeping on<br>track.<br>Final version of report or oral<br>presentation overdue up to<br>50% of the nominal period<br>(without force majeur).                             |        | Mostly realistic time schedule,<br>but no timely adjustment of<br>time schedule if needed.<br>Final version of report or oral<br>presentation at most 25% of<br>nominal period overdue<br>(without force majeur)  |          | Realistic time schedule, with<br>timely adjustments of time<br>schedule but without<br>reconsidering tasks.<br>Final version of report or oral<br>presentation at most 5% of<br>nominal period overdue<br>(without force majeur).  |              | Realistic time schedule with<br>timely and effective<br>adjustments of both time and<br>tasks if necessary.<br>Final version of report and ora<br>presentation finished within<br>planned period (or overdue<br>because of force majeur and<br>finished within reasonable<br>time). |                      |
