

**Grading table Master Bioinformatics (MBF) Transcript of records academic year 2023-2024:**

The grading table requires universities to keep track of their grading practice and culture, which is good practice in many institutions across Europe. The ECTS grading table allows for simple, transparent interpretation and conversion of grades from one system or context to another, and therefore does justice to the level of academic performance of all learners. Used correctly, it bridges different grading systems as well as different cultures in the European Higher Education Area and beyond. The grading table gives the distribution of grades for this specific study period. It presents how many students (in percentages) receive a specific grade. This provides all necessary information to convert the grade in any local grading system.

National/Wageningen University Grade	#Number awarded in reference group	grading %*	cumulative % of the grades
10	14	01	01
9.5	29	02	04
9	94	08	11
8.5	180	15	26
8	253	21	47
7.5	222	15	62
7	182	18	81
6.5	114	10	90
6	118	10	100
TOTAAL	1206	100	

\* Based on the grades of the last 2 academic years.
