

YOUR PATH STARTS HERE

Oregon State
University

This is it. This is the moment.
The moment you start writing your life story
and take the pen into your own hands.

We see you. We see your heart for the
world. We know what it feels like to want to
make your mark — to say, *I'm here. Let me
show you what I can do.*

We will be your partner in this.
Whether you know exactly what you want
out of life, or you want to explore every
possibility. Whether you know who you
are, or still need some time to put the
pieces together. Whether you feel bold,
confident, anxious, hopeful, unsure.

We can get you where you need to go.
And as Oregon's Best Dam University
(we're Beavers after all), you can be sure
that we'll do a good job.

REACH FOR THE STARS.

You have the land, sea, space and sun behind you.

Oregon State was founded more than 150 years ago as a land grant institution, building on the idea that everybody deserves access to an education that transforms their lives. Yours could be next.

Whichever path you choose from our more than 200 academic programs, you'll gain a solid foundation in critical thinking, communication and problem-solving skills through the natural and social sciences, arts and humanities, along with the latest subject-matter expertise.

We continue to adapt our land grant mission to serve today's students. And we're proud to be one of only two universities in the United States to hold land, sea, space and sun grant designations. It's a testament to our deep connection to the natural world and all who depend on it — our enduring purpose to reach a balance for people and planet.

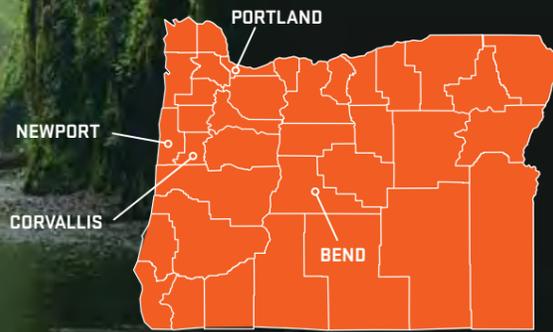

You can be part of it.

Every student — in every major — is encouraged to complete at least one hands-on experience. Apply what you're learning in the classroom through research, an internship, a service-learning project or study abroad. Dive in to the issues and topics you care about and take on some of the biggest challenges facing humankind.

You know you're up to the task. We know it too. **Let's go OUT THERE.**

44.5638° N, 123.2794° W

You know the feeling...

Or at least you will soon.

Golden sunlight streaming through the layered needles of a fir tree. The comforting sound of rain tapping the windows while you study. The smell of a piping hot cup of freshly brewed coffee before class — or sea air drifting in from the coast.

Oregon is mountains, moss and meadows of wildflowers. Wetsuits, kayaks, trail-running shoes and a good book. Oregon is apple orchards, glaciers, food trucks and basketball. Community gardens, seafood, bike paths and four perfect seasons.

Oregon has its own kind of magic. Come see for yourself.

YOUR COLLEGE TOWN, THE WAY YOU ALWAYS DREAMED IT COULD BE.

Students say Corvallis is the college town you'll never want to leave — and we certainly can't argue with them! There's a lot to love about this place.

With a riverside downtown, twice-weekly farmers markets and forested hiking trails just 10 minutes away, it's no wonder Corvallis consistently ranks as one of the safest, smartest, most-sustainable college towns in the United States.

EXPLORE OREGON'S VAST NATURAL LABORATORY.

Keep your backpack handy, because there's a chance you won't be in the classroom for long. Whether setting out from the Hatfield Marine Science Center to conduct research on the Pacific Ocean or testing unmanned aircraft at our Energy Systems Lab at OSU-Cascades in Bend, you're sure to have a college experience you'll never forget.

Just try to stay a homebody. **We dare you.**

CORVALLIS, OR

OUR MISSION EXTENDS ACROSS OREGON. YOUR EXPERIENCE CAN TOO.

As Oregon's only statewide university, Oregon State has two campuses, plus research forests, agricultural experiment stations, laboratories and partnerships where you can learn beyond the classroom.

OREGON STATE UNIVERSITY CORVALLIS, OREGON

Set off on your own adventure from one of America's most iconic college campuses.

OSU-CASCADES BEND, OREGON

Enjoy 20 majors, small classes and unlimited outdoor recreation in Central Oregon.

HATFIELD MARINE SCIENCE CENTER NEWPORT, OREGON

Spend a term or a summer taking classes or doing research next to the Pacific Ocean.

HATTIE REDMOND WOMEN AND GENDER CENTER

ETTIHAD CULTURAL CENTER

NATIVE AMERICAN LONGHOUSE EENA HAWS

This university is your place. To be your true self. Find belonging. Gain perspective. And build an inclusive, just community for all.

BE EMPOWERED, SEEN AND HEARD.

You'll find support and opportunities across campus, including the Educational Opportunities Program, Diversity and Cultural Engagement, the Human Services Resource Center and others. Through social and service clubs, along with student chapters of professional organizations, you can make positive change close to home or around the world — while developing cultural competence, career and life skills.

First established nearly 50 years ago, Oregon State's seven unique cultural centers offer education, celebration and camaraderie for everyone. Get involved at these centers to meet new people and learn about culture, heritage, history, identity and self-expression in a positive, welcoming environment.

We believe strongly in listening to and learning from each other. Join the conversation.

Getting a degree in something that usually excludes the voices of people who look like me has pushed me to challenge myself in a lot of ways. I've learned how to utilize my experiences as a woman of color in conjunction with the philosophical tools I've learned at Oregon State.

HEVANI FIFITA '19
PHILOSOPHY

Being so involved on campus made it feel like a second home. The ability to connect with the people and the surroundings really helped me feel comfortable and welcomed into the OSU community.

SAFI AHMAD '19
INDUSTRIAL ENGINEERING

Get ready for the time of your life.

These are the days you can look forward to now and will remember always. College is when you get to try and try again. So go out there and be bold. Determined. Invincible. You've got an entire community of more than 32,000 students and 4,700 faculty cheering you on.

THIS IS YOUR TIME TO DREAM AND DO.

Fuel your imagination. Feed your desire to create. Explore the unknown. Choose from more than 400 student clubs and organizations where you can try a new hobby, develop a skill and find friends you'll have for life.

In the stillness of night, admire our vast universe with fellow stargazers, immerse yourself in a new culture or watch your inventions come to life in a campus makerspace. You can do it all here.

YOUR WELLNESS MATTERS IN EVERY DIMENSION.

Body, mind or spirit, you'll find resources throughout campus to support health and well-being. Seek guidance or just find someone to talk to. Counselors, nutritionists, wellness coaches, medical staff and others are ready to help.

#GOBEAVS

FAN OR COMPETITOR, MAKE THESE YOUR GLORY DAYS.

Cheer on the Beavers as they take on the competition or revel in the pride you feel after taking your own athleticism further than you thought you could. With a full roster of NCAA Division I, Pac-12 Conference athletics, 20 intramural sports and 30 club sports teams, you'll find ample opportunities to watch and play.

SPIDER HARP

NEWLY DISCOVERED BLUE PIGMENT

WE LOVE MAKING BIG BREAKTHROUGHS.

ESPECIALLY ONES THAT COME OUT OF THE BLUE.

Innovation is embedded into our DNA. Oregon State does more research than the other six public universities in Oregon combined, earning nearly \$440 million in research funding last year. And even as an undergraduate, you can join in. Every year, more than 2,000 undergraduates work alongside faculty researchers or develop projects of their own.

U.S. News and World Report ranked Oregon State No. 1 in the Pacific Northwest for innovation. We're known for engineering and scientific breakthroughs like one of the first robots to stand and walk on two legs, a contact lens that can monitor blood glucose levels and a new strain of seaweed that tastes like bacon when cooked.

But we also blur the lines between science, the arts and the humanities. From a large-scale model intended to understand how spiders sense vibrations, our collaborative researchers created a new musical instrument, the spider harp. And a chemistry professor researching materials for electronics applications ended up producing the first new blue pigment in 200 years. Not only do our artists create paintings using this dazzling new blue, Crayola made it into a new crayon: Bluetiful.

Bright ideas. Unexpected discoveries. They're just waiting for you to come up with them.

HONORS COLLEGE

See how far you can go from here.

You're ready. Brimming with ideas. Excited for everything that college can be. Bring all your creativity and ambition to the Honors College. Whatever you choose to study, you'll be welcomed into a stimulating, interdisciplinary community that will prepare you to successfully take on the challenges ahead.

THE PERSONAL FEEL OF A SMALL COLLEGE. THE OPPORTUNITIES OF A MAJOR RESEARCH UNIVERSITY. CHOOSE THE HONORS COLLEGE AND GET BOTH.

The Honors College is a diverse, tight-knit community of about 1,600 students. In small classes averaging 10 to 20 students, you'll get to know your professors, who often become mentors. Honors offers more than 350 unique courses across academic disciplines, designed to add value to your learning, not extra work.

Your opportunities are as big as your goals. Work alongside Oregon State's top faculty on groundbreaking research, scholarship and creative work. You'll also do original research through the honors thesis. Take a deep dive into a topic that captures your heart and mind, whether or not it's in your major.

Study civil engineering and star in multiple theater productions? Sure. Combine writing poetry with computer science? Why not. Honors students have done it.

You'll graduate with the Honors Baccalaureate, Oregon State's most prestigious undergraduate degree. What's more, the honors experience will prepare you for graduate school, the start of your career or whatever comes next.

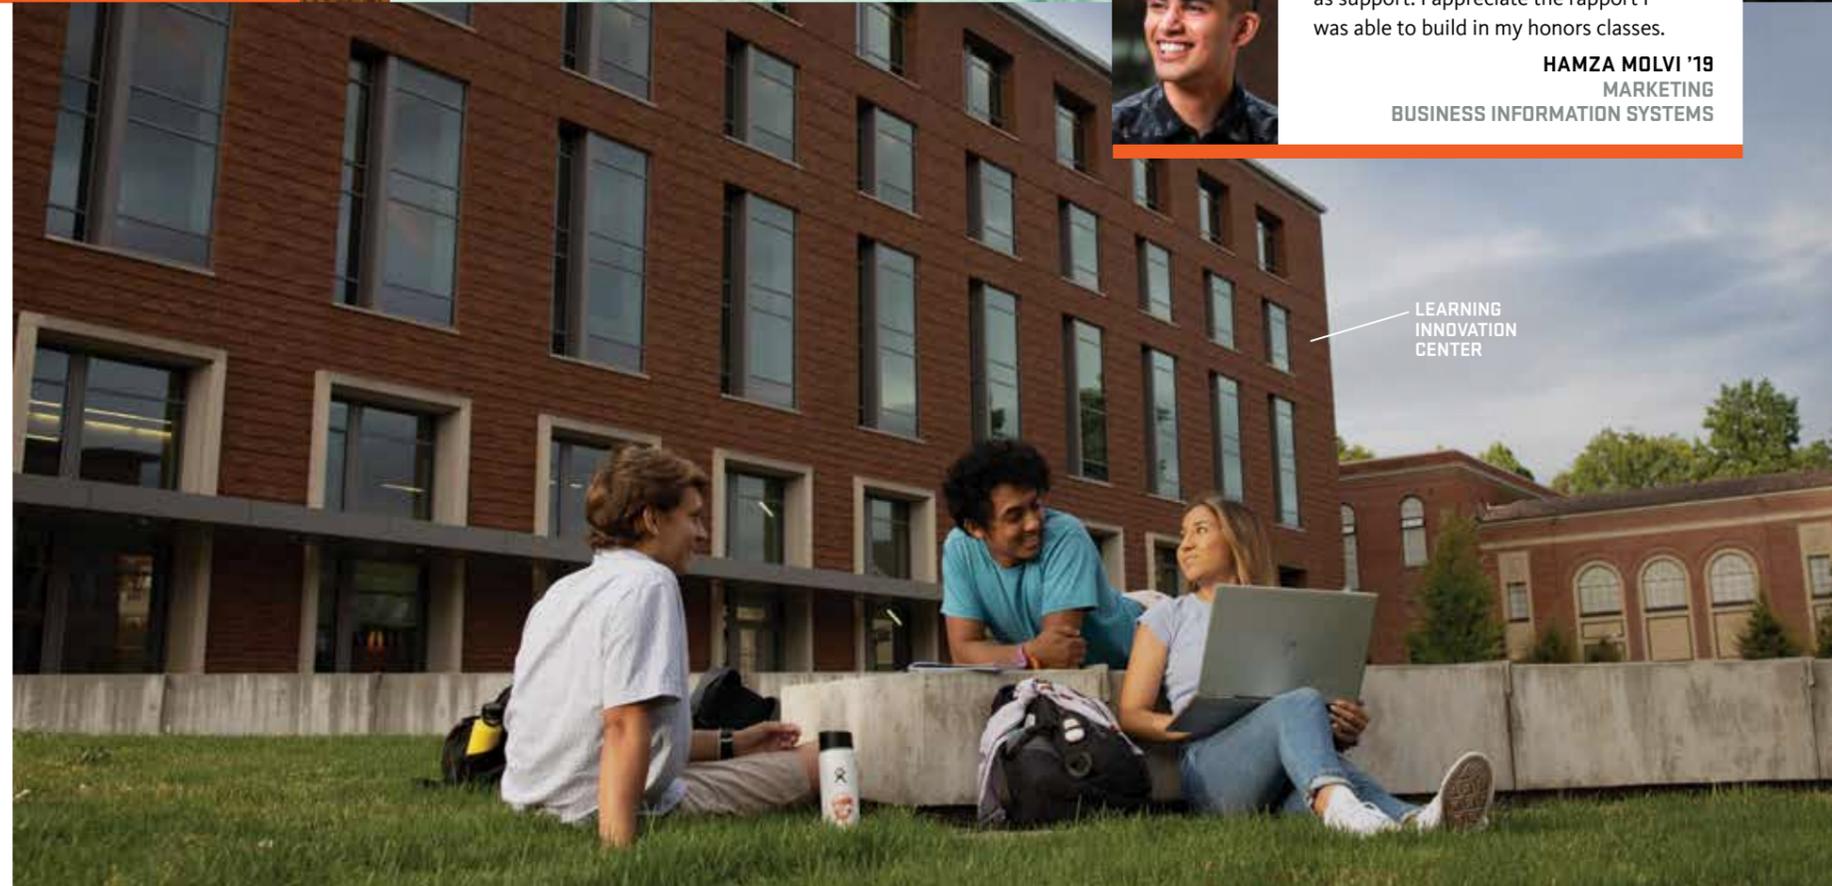

Gear up. Exciting things are coming your way.

Learn more about the Honors College, including admissions requirements, at honors.oregonstate.edu.

My honors professors constantly challenged me, while very much acting as support. I appreciate the rapport I was able to build in my honors classes.

That vision you have for a better world? We see it too.

And we'll do everything we can to make it a reality. Whether taking the lead in the fight against climate change, making headway on a groundbreaking cancer treatment or creating an app that improves emergency response, Oregon State University has been making big moves to build a better future for all of us since 1868. Eager to elevate the voices of people of color? Make river pollution a thing of the past? Whatever sets your heart on fire and gets you moving in the morning, you'll find the support you need to accomplish your vision. And you'll be in good company. That desire to roll up our sleeves and do something that matters — it's a quality that unites every Beaver, stretching back decades.

Sound like your kind of people?
Come join us. We're ready for you.

Earn a degree that will be valuable for life

From the moment you don your cap and gown, you can be proud to hold a diploma from Oregon State University. An Oregon State degree is held in high esteem for good reason. Students leave here prepared to enjoy impactful, meaningful lives — equipped with a top-notch interdisciplinary education, strong critical thinking skills and lots of practice putting their knowledge and abilities to good use through research, internships and terms spent abroad. A degree from Oregon State University means readiness. It means confidence. And it means respect.

Now that's a good investment.

You're here for a reason, so push yourself a little out of your comfort zone. College is a once-in-a-lifetime opportunity, so get out there and shine. Whatever needs to happen will happen.

METZLIN RODRIGUEZ
BIORESOURCE RESEARCH

We're ready to welcome you to Beaver Nation. No test required.

Oregon State University has adopted a test-optional admissions policy for first-year students applying for fall 2021 and beyond. You can decide whether or not to take the SAT or ACT and submit these standardized test scores when you apply to Oregon State.

Why are we going test-optional? Oregon State uses a holistic admissions process that looks at all of your accomplishments and potential. It supports our goals for inclusive excellence and fulfills our mission as a land grant university to provide access to a transformative education. And ultimately, it's the right thing to do.

For more details and answers to frequently asked questions, visit admissions.oregonstate.edu/test-optional-admissions.

ADMISSIONS CRITERIA

Oregon State University has a holistic admissions process that looks at the following items for every applicant, with the goal of identifying and admitting students who have the skills, abilities and drive to succeed at OSU:

- Your high school grades.
- Rigor of coursework, considered in the context of options available at your school.
- Class rank.
- Grades in any college or dual-credit courses.
- Information provided in your personal statement on the application.
- Your responses to one of our available application essay prompts.

Test scores, if submitted, are never the sole or primary reason for an admissions decision; they are always considered in context and as supplemental information.

OSU neither requires, nor accepts, letters of recommendation except when a student is appealing a denial.

APPLICATION PRIORITY DEADLINES

Your admission application and \$65 nonrefundable fee must be received no later than the dates below to be considered for admission. Applications submitted after Feb. 1 will not be considered for scholarships, but may be considered for admission to the university, based on availability.

Oregon State University offers an online application and accepts the Common Application. We do not have a preference as to which application you choose.

FRESHMEN

- Early Action Deadline: Nov. 1
- Regular Decision Deadline: Feb. 1
- Scholarship Filing Date: Feb. 1

HONORS COLLEGE

- Early Application Deadline: Nov. 1
- Regular Application Deadline: Feb. 1

SCHOLARSHIPS FOR NONRESIDENT STUDENTS

- **WUE Scholarship:** Beginning in fall 2021, Oregon State University will be a participating institution in the Western Undergraduate Exchange program. Residents of the following states and territories will be automatically considered for a scholarship that reduces your tuition costs to 150% of resident tuition (renewable for up to four years total): Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, South Dakota, Utah, Washington, Wyoming, Guam and the North Mariana Islands. WUE Scholarships are competitive and awarded based on a holistic review of your application for admission. Not all students from a WUE state will be offered an award. For more details, visit admissions.oregonstate.edu/wue.
- **Provost Scholarship:** Offers up to \$14,000 to nonresident students from any state who do not receive a WUE Scholarship. Provost Scholarships are awarded based on a holistic review of your application for admission (renewable for up to four years total).
- **Diversity Achievement Scholarship:** Offers \$3,000 to students who are actively working to advance diversity, equity, inclusion and social justice on their campuses and in their communities (renewable for up to two years total). To be considered for this competitive award, submit your application through OSU ScholarDollars. Applicants whose parents have not completed a four-year college degree and applicants who have financial need are given preferential consideration.
- **IB Diploma Scholarship:** Offers \$3,000 to students who earn a total score of 30 or higher on the IB exam and complete the IB Diploma (renewable for up to four years total).
- **National Merit Scholarship:** Offers up to \$2,000 for National Merit finalists (renewable for up to four years total).

Your education is an investment worth making. Especially when we can help.

Consider the value of a college degree. According to PayScale, Oregon State graduates earn a median early career salary of \$56,200 and \$104,900 at mid-career.

SCHOLARSHIPS AND FINANCIAL AID

Oregon State University awards more than \$257 million in scholarships and aid each year. OSU ranks the highest among all Oregon universities in total grant and scholarship dollars awarded and total undergraduates receiving them. Apply for admission early to maximize your scholarship opportunities. Submit your FAFSA before Feb. 28.

You will be considered for most scholarships based on your application for admission, but some require you to apply through OSU ScholarDollars. Visit scholarships.oregonstate.edu for details.

PRE-LAW (3+3)

Through a unique 3+3 partnership, you can complete your first three years at Oregon State, then transfer to Willamette University's College of Law in Salem or the Lewis & Clark Law School in Portland. You'll earn your bachelor's degree and your law degree in six years total.

PRE-MED

You can apply to medical school with any major, as long as required Pre-Med courses are completed. Pre-Med students typically choose majors in Science (BioHealth Sciences, Biology, Biochemistry/Biophysics, Biochemistry/Molecular Biology, Chemistry, Microbiology, Zoology), Engineering (Bioengineering, Chemical Engineering, Radiation Health Physics), Public Health and Human Sciences (Kinesiology, Nutrition, Public Health) and Liberal Arts (History, Music, Psychology, etc.). For more information visit premed.oregonstate.edu.

PRE-PHARMACY

Most Pre-Pharmacy undergraduates choose College of Science majors. A common choice is BioHealth Sciences with a Pre-Pharmacy option.

PRE-VETERINARY MEDICINE

Pre-Veterinary Medicine preparation is available in the College of Agricultural Sciences (Animal Sciences) and the College of Science (Biology).

UNIVERSITY EXPLORATORY STUDIES PROGRAM

You don't have to decide on a major right away. In the UESP, you can assess your career goals, interests and skills, then make well-informed decisions about potential majors while staying on track for graduation.

MARINE STUDIES INITIATIVE

Spend a term or more living and learning on the spectacular Oregon Coast. Venture out on the Pacific Ocean on a research vessel. Study whales, coral reefs, coastal ecosystems and the communities that rely on them. Marine studies can be incorporated into multiple academic programs.

INTERNATIONAL PROGRAMS

Choose from nearly 200 international programs in 70+ countries. Take classes, complete an internship, conduct research or work on a service-learning project. Financial aid and scholarships are available. Oregon State also offers a unique double-degree program in International Studies, which can be paired with any major.

OSU felt like home from the moment I stepped onto campus. I not only felt like I could study at OSU, but I felt like I could be a part of the community. No other college or university gave me the same feeling.

REINA TAKAKI '20
BIOENGINEERING/PRE-MED

Come see Oregon State for yourself. In person or on a virtual visit.

Get a preview of your future life. On a campus visit, you can take a student-led tour, check out the residence halls and meet some of our faculty and students.

To schedule a personalized in-person visit, contact the Welcome Center at 800-291-4192 or online at visitosu.oregonstate.edu. Tours are available Monday through Friday, and we also offer several full-day programs — Beaver Open House, Beaver Previews and Orange & Black Days — throughout the year.

If you can't come to campus, **you can still get a personalized virtual visit experience.** Sign up for a guided tour with a student ambassador who will share their experiences and answer your questions. Attend a presentation on housing and dining options, explore our colleges and academic programs, meet with an admissions advisor and more. Get started at admissions.oregonstate.edu/virtual-visit.

Come see us. The welcome mat is out — including on your screen.
