

Release notes Hora Finita

Effective as of 12-05-2022

WUR564 Deficiency filter "submitted"

The deficiencies could already be filtered, with this modification the additional filter "submitted" has been added. This filter combines all pending deficiencies that already have a date entered in "submitted on". This filter allows the user to request a list of deficiencies yet to be assessed.

The screenshot shows the 'Requirement - Items page' in the Hora Finita system. The page title is 'Requirement - Items page' with a subtitle 'Requirements: 1 - 7 of 7'. A filter dropdown is set to 'submitted', and a red arrow points to this filter. The table below lists requirements with columns for requirement, deadline, submitted on, resolved, and modified.

checkbox	requirement	deadline	submitted on	resolved	modified
<input checked="" type="checkbox"/>	Language exam required	30-03-2022	27-03-2022	no	27-03-2022 13:36:21
<input type="checkbox"/>	Research proposal required	15-02-2022	22-03-2022	no	22-03-2022 18:15:14
<input type="checkbox"/>	Research proposal required	01-11-2021	22-03-2022	no	22-03-2022 11:40:48
<input type="checkbox"/>	Research proposal required	01-10-2021	24-03-2022	no	24-03-2022 15:46:23
<input type="checkbox"/>	Research proposal required	10-10-2022	23-03-2022	no	23-03-2022 01:01:50
<input type="checkbox"/>	Research proposal required	01-09-2022	24-03-2022	no	24-03-2022 14:28:45
<input type="checkbox"/>	Research proposal required	10-10-2022	21-03-2022	no	21-03-2022 16:33:20

WUR577 New assessment round for assessment committee not resetting all fields

By default, when starting a new round of assessments, the original assessment is cleared. It has now become configurable which fields are cleared on a new assessment round. The default is still that all fields are cleared. This new option makes it possible not to erase, for example, the comments and/or suggestions for the supervisor / PhD student. The reviewers can now see their own comments from the original review and reassess more easily.

WUR845 Hide tab documents by type

The documents tab displays the documents that are attached to the PhD track. With this modification, certain document types can be hidden per Hora Finita role. By default, all document types are shown so that conduct does not change. Roles that did not have access to the documents tab previously will now not be able to do so either.

Functional management can indicate the roles per document type.

Document type - update
520 MSc diploma

Document type

Roles that may view documents
Documents regarding the PhD project are hidden by default for certain roles. You can enable access for this document type below.

roles

- (buiten gebruik) Leerstoelgroepmedewerker
- Administratief medewerker Graduate School
- Admissions Office
- Beleidsadviseur
- Communicatiemedewerker
- Dean of Graduate Schools
- Decaan Faculteit
- Decaan Faculteit - promotor combinatierol
- Developer
- Directeur GS - promotor combinatierol
- Graduate School Applicatiebeheerder
- HR-medewerker
- Instituutsdirecteur
- Instituutsdirecteur - promotor combinatierol
- Leerstoelgroepmedewerker
- Onderzoeksschoolmedewerker
- Opleidingscoördinator
- Pedel
- PhD office
- Promotor
- Promovendus
- Registrant
- Secretaresse van instituutsdirecteur
- Secretaresse van promotor
- UB
- Universitair Applicatiebeheerder

Roles which may generate documents
Below you can choose the roles for which this template is available to generate documents.

WUR871 Setting up the title page according to the WUR format

The title page generator template had not yet been adapted to the WUR model. The generator now produces a title page according to the WUR format, noting that this is a 1st draft. The PhD student should always check this page and make some adjustments if necessary.

WUR793 Display English department at 'access other organizations'

Access rights for other organizational parts can be setup on the details page of a PhD project on the first tab in the right column. The department name (in this screenshot "chair group") was listed in Dutch, while the user had selected the English language option in Hora Finita. In case the department name is only available in Dutch, the Dutch variant will of course still be displayed.

— Access other organizational units

Specify below if the PhD project is to be assigned to multiple graduate schools or chair groups. Choose between limited or complete access.

organization level	name	access level
department	ASG	limited
chair group	Human and Animal Physiology	complete

Edit organizations

— Toegang andere organisatieonderdelen

Geef hieronder aan of het traject aan meerdere onderzoeksscholen of leerstoelgroepen toegewezen moet worden. Maak daarbij een keuze tussen minimale of volledige toegang.

organisatieniveau	naam	toegangs niveau
department	ASG	beperkt
chair group	Fysiologie van Mens en Dier	volledig

Wijzig organisaties

WUR803 Search by column 'status' in English

To search the status column, you previously had to use the Dutch-language name value, for example "gestart" to find PhD tracks with status "started".

The screenshot shows the HORA FINITA interface. At the top, there are navigation links: "My Jobs (1)", "My profile", "Switch role", "Logout F. Zonnevylle - 8 faculties", and a language selector. Below this is a breadcrumb trail: "PhD projects > Persons > Progress > Mailings > Reports > Support". The main content area is titled "PhD project - Items page" with a sub-header "PhD projects: 1 - 20 of 2,424". A red arrow points to the "status" column in a table. The table has columns for "PhD candidate", "start", "planned PhD programme end", "ceremony date", "status", "Secretary", "faculty", and "modified". The "status" column contains the value "started" for all visible rows.

PhD candidate	start	planned PhD programme end	ceremony date	status	Secretary	faculty	modified
	01-07-2017	01-07-2021		started			
	01-09-2021	31-08-2024		started		ErasmusMC	22-08-2021 14:04:37
	01-09-2017	28-02-2023		started		ErasmusMC	09-12-2021 13:58:19
	01-12-2010	30-11-2022		started	ISS programme - full time	ISS	16-02-2022 10:29:36
	15-09-2017	15-09-2021		started		ErasmusMC	22-08-2021 23:07:03
	01-01-2022	31-12-2022		started		ErasmusMC	16-02-2022 10:29:36
	01-06-2017	31-05-2021		started		ErasmusMC	11-01-2022 08:23:35
	01-04-2021	01-04-2023		started		ErasmusMC	10-05-2021 14:03:54
	01-09-2017	01-09-2021		started		ErasmusMC	14-09-2021 09:48:38
				started		ErasmusMC	22-10-2021 10:02:38

WUR861 E-mailaddress PhD candidate does not transfer using 'E-mail those involved'

When using the "Email those involved" button and selecting the PhD student, the PhD student's email address did not transfer through. This bug has been fixed.

WUR873 Date of status modification does not come across properly

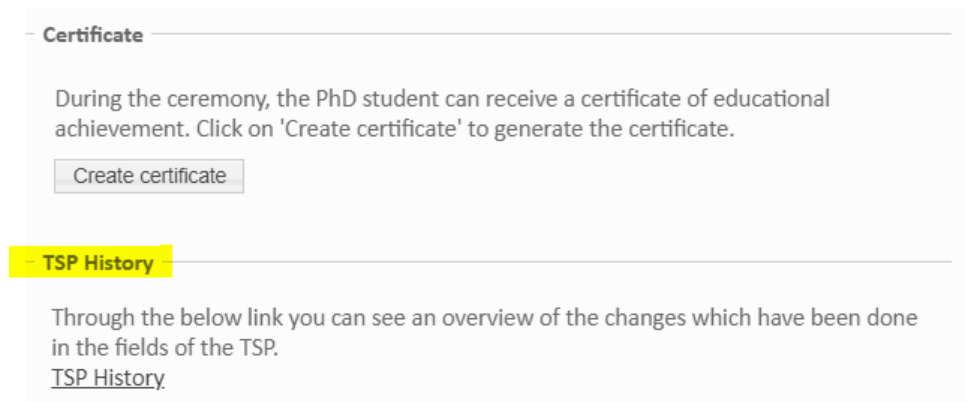

When changing the status of a PhD project, the date of the status modification did not come across correctly. For example, if the project was set to "Stopped", then the defined "Stopped" date was not transferred. This bug has been fixed.

WUR883 Registration status is not changing to additional data required

When a research school employee requested additional information during registration and at the same time changed the email address on the page where the email text is drafted, a bug prevented the registration status from being changed to "additional information required." This led to problems for the PhD student. The latter could not make a modification to their registration, because the status was not in the "correct" state, while the mail did imply this. Changing the recipient no longer affects the possible modification of the registration status.

WUR901 Setting version types for TSP

It is now possible to view previous versions of the TSP in the PhD Office and 'onderzoeksschoolmedewerker' roles, so that first version can always be recovered. This can be found under 'TSP history' on the TSP tab.

The screenshot shows a web interface with two sections. The first section is titled "Certificate" and contains the text: "During the ceremony, the PhD student can receive a certificate of educational achievement. Click on 'Create certificate' to generate the certificate." Below this text is a button labeled "Create certificate". The second section is titled "TSP History" and contains the text: "Through the below link you can see an overview of the changes which have been done in the fields of the TSP." Below this text is a link labeled "TSP History".

WUR909 Adjustments to the declaration that person has been awarded the doctorate title

Some textual changes have been made to the declaration that can be created at the Ceremony tab.

WUR912 List of jobs cleaned up for regular users

Hora Finita has several background tasks. Users can view their own background tasks that they have requested. This list also contained some internal tasks that are associated with the user, but that are not relevant for them to be displayed. These tasks are now hidden.
