

2nd CALL FOR ABSTRACTS

2ND INTERNATIONAL FOREST POLICY MEETING

WAGENINGEN UNIVERSITY, NETHERLANDS, APRIL 11-13, 2018

This is the **second call** for abstracts of papers and posters for the second International Forest Policy Meeting (**2IFPM**) hosted by the Forest and Nature Conservation Policy group of Wageningen University. IFPM is a biannual initiative of two European forest policy research networks: the *Nordic Network on Forest Policy Science* (Scandinavia) and the *Forstpolitiktreffen* (Central Europe).

We call upon scholars associated with both networks to present their recent work in Wageningen next April 2018. All contributions to forest policy studies are welcome, but we particularly invite contributions that address the link between forest policy and the SDGs (Sustainable Development Goals). The background of this theme is the Centennial of Wageningen University in 2018, which will be celebrated with a series of events on the SDGs, including special keynotes and panels at 2IFPM.

The **extended deadline** for paper and poster submissions is **December 22, 2017**. Authors should indicate their preference for oral or poster presentation and include a full title for their paper/poster, as well as an abstract with a maximum of 300 words. Please send your proposal to: keenmun.poon@wur.nl, with subject "Paper (or Poster) proposal submission 2IFPM".

Decisions on paper and poster presentations will be communicated **January 15, 2018** at the latest. We welcome submission of full papers and posters **March 15, 2018**. Best papers will be offered for publication in *Forest Policy & Economics* (2IFPM section) or in *Forests* (special issue on REDD+). The conference's program will be published **March 31, 2018**.

Participants can register for the 2IFPM from **November 1, 2017** until **February 1, 2018**. Information on accommodation in Wageningen and the conference fee can be found in the invitation letter and the website <https://www.wur.nl/en/Expertise-Services/Chair-groups/Environmental-Sciences/Forest-and-Nature-Conservation-Policy-Group/Second-International-Forest-Policy-Meeting.htm>.
