I'm fully vaccinated* (including Booster ≥7 d ago)

Check the blue box that applies

I'm >5 days out of isolation after Covid-19 and was tested positive <8 weeks ago

You're welcome on location

I have mild or severe Corona linked complaints*

You can come out of isolation after 5 days after onset of symptoms and being at least 24h without complaints

I didn't have Corona linked complaints*

Don't come to campus for the next 5 days after first positive (self) test

I tested positive in a qPCR test (from GGD)

Don't come to campus, get qPCR tested** a.s.a.p. and wait for the test result

Test result Positive

You're welcome on location. You're considered fully vaccinated when you finished your Pfizer/Moderna/AstraZeneca/Janssen vaccination series (series might consist of a confirmed infection + 1 vaccination) AND received a booster vaccination (Pfizer/Moderna) more than 7 days ago. This applies equally for a full vaccination series +booster with another WHO EULPQ approved vaccine.

Test result Negative

I have mild Corona linked complaints * and I'm not in quarantine

You're welcome on location, both you and your housemate should do another selftest, 24h later

I tested positive in a self-test and/or have severe Corona linked complaints*

You're welcome on location

A house-mate*** has mild Corona linked complaints*, and both the house-mate and you tested negative in a self-test

Do a Selftest

Positive

A short and/or non-close**** contact with someone who tested positive (this includes prolonged contact when wearing a medical mouth-nose-mask)

Do a Selftest a.s.a.p.

Positive

None of the above?

Follow GGD advice

A house-mate tested positive in a qPCR or selftest and is isolated from the test moment onwards in his/her own room. You receive your booster at least 9 days before the positive test of your house-mate

Don't come to campus, get qPCR tested** a.s.a.p. and wait for the test result

Test result Positive

You're welcome on location

Test result Negative

Someone in my classroom, lab or office that was a close contact*** (while not wearing a medical mask) tested positive with a self-test or qPCR test or A person or the GGD informed me that I was a close contact*** of someone tested positive or I got a notification from the CoronamelderApp

Do a Selftest a.s.a.p.

Positive

When required to be on location, your work allows this. When your housemate tested positive, it’s advisable to take a qPCREDIT** on day 5 after last contact with your housemate

Negative

A house-mate*** has mild Corona linked complaints*, and both the house-mate and you tested negative in a self-test

Check with our regional GGD (0800-8446000 daily 08:00-17:00)

You're welcome on location

Another contact with someone who tested positive

Follow GGD advice

None of the above?

*You're considered fully vaccinated when you finished your Pfizer/Moderna/AstraZeneca/Janssen vaccination series (series might consist of a confirmed infection + 1 vaccination) AND received a booster vaccination (Pfizer/Moderna) more than 7 days ago. This applies equally for a full vaccination series +booster with another WHO EULPQ approved vaccine.

**GGD test facility in Wageningen at Agro Business Park 99-101, walk in hours (that is, without appointment) 9:00-16:30. Alternatively you can make an appointment via Coronatest.nl or 0800-1202.

***A house-mate is a person with whom you're sharing facilities such as kitchen and/or bathroom and/or living room.

Sharing only a walkway/door/room doesn't make you house-mates.

****Close contact is <15 minutes within 24h at <1.5m distance, or when kissing or hugging some-one (irrespective of duration). When you've properly worn a medical mouth-nose-mask (ffp2) during that contact, you're not considered a close contact.

#Severe Corona linked complaints are fever and/or shortness of breath and/or sudden loss of taste/smell. Mild Corona linked complaints are: cold symptoms such as nasal cold, runny nose, sneezing, sore throat that are not directly linked to a known condition (e.g. Hay-fever).

#Vulnerable are persons defined at (www.rivm.nl/coronavaccinatie) that include a.o. persons >70y, having severe chronic lung or cardiovascular disease, non-adjusted diabetes or are morbide (BMI>40). In these cases indicated self-tests should be replaced by PCR tests.

Note: When the GGD (Municipal Health Service) contacts you, they might give you a personal advise that deviates from the one given here, in that case follow their advice.

For specific questions on this chart, you can email info.corona@wur.nl.

Rules at Wageningen University & Research locations

Stick to the WUR Corona Protocol

Find the most current protocol on the WUR website.

Do you see someone around you with symptoms? Then address him or her kindly.

A (medical) nose-mouth mask can be worn, available at reception desks.

Wash or disinfect hands often.

Sneeze and cough in elbow.

Keep 1.5m distance where possible.

Keep a stock of selftests, to test when having (minor) complaints.

Order them at Zelftestonderwijs.nl.

Work from home (if your work allows this) for the next 5 days. Avoid vulnerable persons

When required to be on location, a medical nose-mouth-mask is mandatory.
I'm NOT fully vaccinated* (incl. booster <7 days ago)

Check the blue box that applies

Employee Version
Valid from March 15, 2022

Can I come to a WUR location?

Use this checklist to take your own responsibility and check it every time you want to come to Campus. This checklist applies when you’re not considered vulnerable.

The latest version of this checklist is always available at wur.nl/curalist.
