

Assessment Form MSc Thesis Wageningen University

version of date 25-08-2022 (version 1.4.1)

This form will be phased out in 2022-2023: please shift to the new case process in OSIRIS (including grade registration)

NOTE: each assessor fills in a separate form. The forms need to be uploaded in OSIRIS.

Complete the green fields boxed with a single line. (use decimal point or comma, depending on the language setting of Excel)

Only provide marks for those criteria for which you have sufficient information to make an assessment

Name chair group	<input type="text"/>	Fill-in by supervisor chair group	
Name student	<input type="text"/>	Fee Percentage per chair group

Underpinning of grading (compulsory)

(Please use ALT+ENTER to open a new line; you can resize the cells below if you need more vertical space)

The underpinning illustrates the specifics of the work of the student, in connection to the more general descriptions in the rubric. Describe, for each category (performance, report, presentation, defence) the aspects of the student's work that most clearly illustrate your assessment. As a guideline you could give examples for the criteria that you assessed lowest and highest, as well as a criterion that received an average assessment. If applicable, you should also mention aspects that are not mentioned in the rubric but you find relevant in your assessment, in particular points of excellence that make you deviate from the suggested scoring in the rubric.

Performance:

Research report:

Oral presentation:

Oral defence:

Feedback to student (not compulsory to fill in *here*)

(Please use ALT+ENTER to open a new line; you can resize the cells below if you need more vertical space)

Provide feedback to the student that is not directly related to the grading (this feedback may also be given to the student by other means)
