

## Science-policy event (June 13)

### What are we looking for?

We are looking for focused contributions that showcase how inter- and or transdisciplinary research and education has contributed to SDGs. We organise this event around three main nexuses:

Nexus 1: Environment – Society nexus

Nexus 2: Society – Food nexus

Nexus 3: Food – Environment nexus

A contribution should fit in either of these three nexuses. Next to presenting achievements, we would like the contributions to reflect on lessons learned on the science-policy interface in their context, and what is needed (in terms of science-policy interface) to increase your societal impact in the future.

### What should the expression of interest cover?

Expressions of interests for the policy event should cover

- Project title, country of implementation, presenter (we specifically encourage contributions from Low and Middle-Income countries)
- Motivate your choice for one of the 3 nexuses:
  - o Nexus 1: Environment – Society nexus
  - o Nexus 2: Society – Food nexus
  - o Nexus 3: Food – Environment nexus
- Key societal (and scientific) impact in relation to the SDGs and specific nexus and successes
- What lessons learned in relation to the science-policy interface would you like to discuss? (What works, what does not and why?)

### How to submit your expression of interest?

Please click [here](#) to fill out the online form to submit your proposal. In order to submit your proposal, you need to create an author account.

### Selection and review procedure

- We have space for a maximum of 12 presentations (4 in each track), each of them being max 15 minutes long.
- All expressions of interest will be reviewed by the organising committee [link to organising committee].
- A selection will be made based on the criteria mentioned above as well as ensuring balance and diversity in terms of content and institutional background.
- We will communicate to the selected expressions of interest on March 10 the latest.
- 12 selected expressions of interest are requested to submit the summary of their contribution (1500 words) on April 15.
- Summaries of contributions will be put online on June 1st, for the audience and participants to have a look at them beforehand.

Accepted policy briefs will be included in a publication with the main findings of the event. The details of this process will follow soon.

### Summary and key dates

Deadline expression of interest	April 1, 2022
Selection of expressions of interest	April 8, 2022
Submission draft contribution (1500 words)	April 26
Deadline final submission contribution	May 23
