

Welcome Center Food Valley Home Search Program

WCFV offers programs to help find a place to call home.

Welcome Center Food Valley welcomes expats to the Netherlands. Our aim is to give guidance and support. We strive to protect the transferee against illegal practices. The Home Search Program offers three tracks to choose from. They differ in how and to what extent the assistance is required.

The aim of the Medium and Premium Home Search Track is to share all properties of interest available. We make sure the transferee will be invited to view homes, and will receive optimum support during contract negotiations. Thanks to our warm relationships with realtors, expats will get the best chance to be selected for an excellent property for a fair price.
