Academic Offer in French for Exchange students in our “Ingénieur” program

GENERAL INFORMATION

The “Ingénieur” program lasts 5 years in total. The first 3 years correspond to Bachelor (BSc) level courses, and the last 2 years correspond to Master (MSc) level courses. A B2 level in French is recommended (B1 level only accepted after oral examination).

Official reference is CEFRL

COURSE LOAD AND GRADING SYSTEM

PURPAN follows the European Credit Transfer System (ECTS).

A semester workload in the “Ingénieur” program corresponds to 30 ECTS. However, this curriculum includes not only courses, but also internships and reports, which are not always accessible to exchange students.

Exchange students can usually choose courses worth between 15 to 25 ECTS per semester in the “Ingénieur” program. They should thus inquire about their Home Institution requirements and check how they can reach them with this program.

Exchange students will be welcomed in Year 3 or 4 of the program. Access to Year 5 is restricted to students with enough academic background and who are fluent in French. Final enrolment in classes is subject to validation of prerequisites.

Students cannot mix courses from different years of studies (in order to avoid timetable conflicts).

COURSE OFFER

Acceptance to courses with a (*) will be subject to validation of pre-requisites.

It is not possible to mix courses from different years. In Year 3, it is compulsory to attend all courses of the selected “UE” (not possible to pick only one course of an “UE”).

Année 3 (September 2023 – February 2024)
