

# Introduction: Sensory Science and Eating Behaviour Chair Group

## Understanding how Sensory properties Influence food choice, intake and health

Prof. Ciarán Forde  
Texture/Oral processing, Children, Energy Density

Associate Prof. Monica Mars  
Endocrine, Digestion, Big Data, Taste, Tracking Eating

Associate Prof. Paul Smeets  
Gastric/Brain imaging (MRI), Digestion/Neuroscience

Prof. Markus Stieger  
Food texture/Oral processing, Food Technology

Associate Prof. Gerry Jager  
Children's preferences, Cognition, Psychology

Associate Prof. Sanne Boesveldt  
Odour perception, food choice,  
clinical populations

Assistant Prof. Arianne van Eck  
Food texture/Oral processing, Flavor  
release/perception

Assistant Prof. Marlou Lasschuijt  
Children, Oral processing, Imaging,  
Tracking eating behaviours

Special Prof. Liesbeth Zandstra  
Food choice, Reward, Food Context

Dr. Victoire de Wild, Academic Lecturer  
Child eating behaviours/Preferences,  
Vegetable acceptance
