

Application form material subsidy student sports association

This form is used to request small training materials and has to be submitted before the **1st of April / 1st of November**. The exact rules are stated in by-law 2.5 of the by-laws of SWU Thymos. In order to file a request, this form should be filled out completely and needs to be signed by the SCB trainer*. In case an association does not have a trainer at the time of request, this form should be signed by their coordinator sport of Sports Centre de Bongerd.

The different requested materials should be prioritized in case of multiple requests within the same year. A condition for the material subsidy is that a recent material list has to be submitted (preferably in Excel format), as well as the finances (before the 1st of April), and approved by SWU Thymos.

Finally, materials are always ordered by SWU Thymos. An association can mention that it prefers to order materials by itself because of discounts, but this always has to be discussed with SWU Thymos.

*A signature is not needed in case the trainer sent an e-mail.**
