
Manual for installing and configuring MyWorkspace

Mac

You can access MyWorkspace using myworkspace.wur.nl. Here, you can access the same files on your network drive (among others) as you normally would when you are logged in to a computer at Wageningen University & Research.

It is useful to install the program VMware Horizon Client on the computer the first time you launch myworkspace.wur.nl. This manual explains how you can install the VMware Horizon Client and how to launch MyWorkspace from an Mac computer.

For more information, see: www.intranet.wur.nl/myworkspace

Quick Start

Step 1

Open a browser and type in the following URL: myworkspace.wur.nl.

Fill in your username (JANSE011) and password for your WUR account. Click on "Sign in".

Step 2

Double click to select your desktop.

Step 3

Click on the link "Install the Horizon Client". Then a new tab will open.

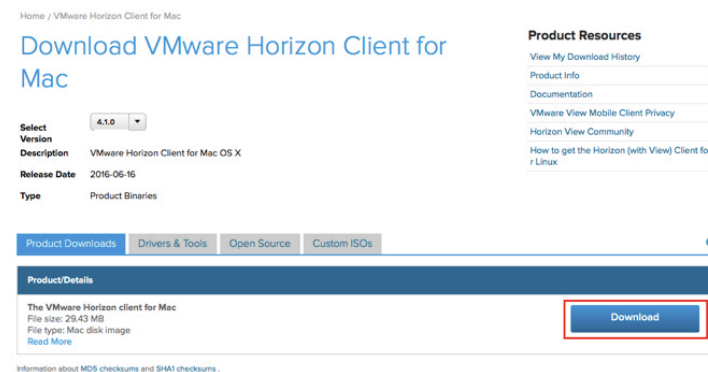

Step 4

Under VMware Horizon Client for Mac, select "Go to Downloads"

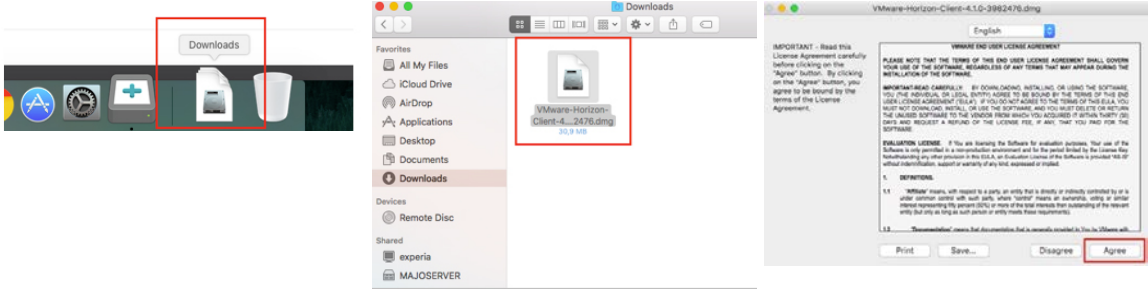

Step 5

Select "Download" to download the VMware Horizon Client.

Step 6	Step 7	Step 8
Select "Downloads" in the box.	Double click on "VMware Horizon Client-*.dmg"	To agree with the terms & conditions, select "Agree"

Step 9	Step 10	Step 11
Drag the VMware Horizon Client to the application folder.	Open Launchpad to start an application.	Type "Vmware" in the search bar. Open the VMware Horizon Client.

You can do this by clicking on the VMware Horizon Client, holding down the mouse button, and moving it to the application folder.

The VMware Horizon Client will now be added to the applications.

Step 12

Add a server. Click on: '+'.

If the VMware Horizon Client is still trying to connect before you reach the screen, please close this window.

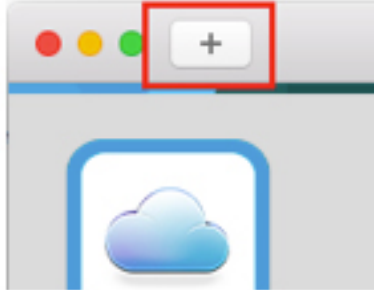

Step 13

As the server name, fill in: **workspace.wur.nl**. Then select "Connect".

Step 14

Select the desktop you wish to use and launch it by double clicking on it.

Now MyWorkspace will launch. Log in with your WUR username and password.
