
Manual for installing and configuring MyWorkspace

Windows 10 mobile

You can access MyWorkspace using your Windows 10 mobile phone. Here, you can access the same files on your network drive (among others) as you normally would when you are logged in to a computer at Wageningen University & Research.

To use MyWorkspace, you will need to install the VMware Horizon Client app. This manual explains how you can install VMware Horizon Client and launch the virtual workspace from a Windows 10 phone.

For more information, see: www.intranet.wur.nl/myworkspace

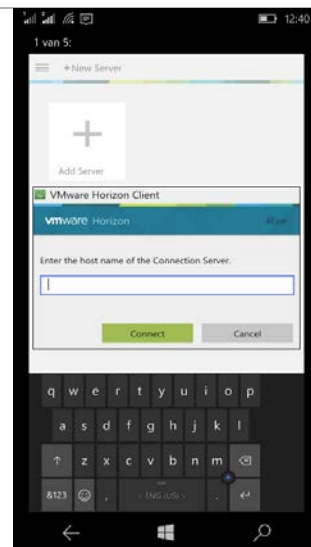

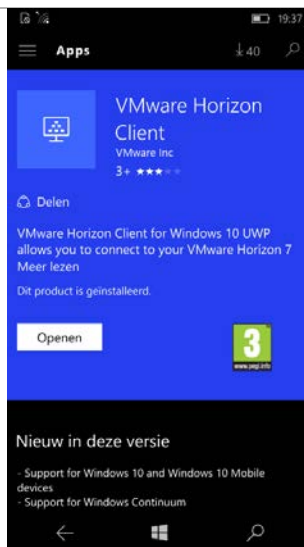

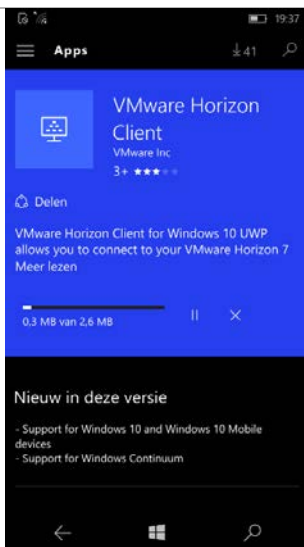

Quick Start

You need a Microsoft account to download and install the app. If you don't have an account, you can create one at: <http://www.microsoft.com/nl-nl/account/>

Step 1	Step 2	Step 3
Open the Microsoft Store.	Type "vmware" in the search box and select "VMware Horizon Client".	Click "Free" to start the download.

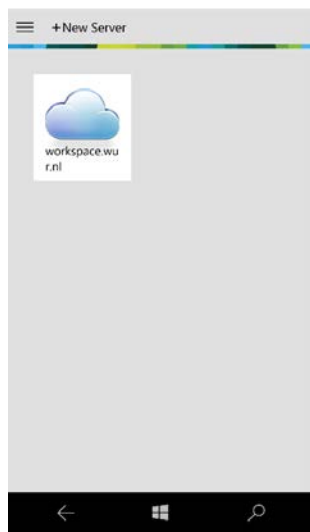

Step 4	Step 5	Step 6
VMware Horizon Client will download and install.	Select "Open" to launch VMware Horizon Client.	For "Host name of Connection Server" fill in: workspace.wur.nl . Then select "Connect".

Step 7	Step 8	Step 9
--------	--------	--------

Select the icon: "workspace.wur.nl".

Fill in your shortened username (such as JANSE007) and the password for your WUR account. Select "Login".

Choose the desktop you wish to open. In this case, only one is available.

Step 10	Step 11	Step 12
---------	---------	---------

The WUR client desktop icon will appear on the home screen of your Windows phone. Tap on it to get started.

To end the session, click on the "Disconnect" icon at the top of the home screen. Then click on either "Disconnect" or "Log off".

In conclusion: Unfortunately, it is not yet possible to rotate the screen in this version.
