The administrative positions listed under a, b and c and the accompanying claim to and payment of financial support are explicitly addressed in Article 9. Subsection d is explicitly addressed in Article 10 on participation as a top athlete.

#### **Article 4 Terms and conditions**

To qualify for support, a student must satisfy the following terms and conditions:

- a. The student has incurred at least one month's study delay during the course of the academic year, due to special circumstances as listed in Article 3, sub. d, e, f, g, h, and i, or at least two months as a result of special circumstances listed in Article 3, sub. a, b and c.
- b. The special circumstances occurred during the period in which the student lay claim to study financing. As an exception to this rule, a student who has incurred a study delay due to special circumstances listed in Article 3, sub. a, b, and c, can also apply for support if these circumstances occurred while taking a programme for which the student in principle is eligible for study financing, after the termination of the student's right to study financing. As an exception to the provisions under subsection b, students enrolled in a Wageningen University for which they do not yet have a degree and who cannot or could not qualify for study financing can qualify for the present regulations to the extent to which the special circumstances referred to in Article 3, sub. a, b, and c are concerned.
- c. As a second exception to the provisions under b, students enrolled in a Wageningen University programme for which they do not yet have a degree and who cannot or could not qualify for study financing or any other grant that has the possibility for extension in the event of the following special circumstances, can qualify for the present regulations to the extent the special conditions referred to in Article 3 under sub. e, f, g, h and i are concerned. Both during the period of support and during the period in which the study delay was incurred, the student must be enrolled as a student for a full-time programme and pay/have paid tuition fees to WUR.
- d. If the student is taking multiple programmes at different institutes for higher education, he/she may only lay claim to this regulation if he/she was enrolled at WUR first and has paid tuition fees to WUR. Students enrolled in an online programme are not eligible for financial assistance on the grounds of this regulation.
- e. Any student who applies for financial support on the basis of special circumstances as listed in Article 3, sub. e, f, g, h and i must have satisfied the reporting obligation as described in Article 5.
- f. The student must fulfil the agreements that have been made with the student dean in writing. These agreements are intended to prevent or limit any new study delay.
- g. In the event of a special circumstance as referred to in Article 3, under e or f, the student must actually be studying. This means that the student is capable of taking a study programme with a study load of at least 30 credits. In the event of a special circumstance as referred to in Article 3, sub. e or f that renders the student eligible for an extension of the study financing as referred to in Article 5.2b of the WSF 2000, the student must consult with the student dean to determine the most appropriate sequence or combination of support through WUR and DUO. The dean will record the agreements made about this in writing.

**Article 5 Compulsory reporting and determination of the duration of the study delay in the case of circumstances beyond one's control**

- 5.1 To be able to qualify for support due to special circumstances as listed in Article 3 under sub. e, f, g, h and i, the student must report the circumstance which may lead to a study delay to one of the student deans and show supporting documents.
- 5.2 Reporting of the special circumstances as listed in Article 3 under sub. e, f, g, h and i must take place immediately and no later than two months after the conditions that caused the study delay occurred or became known, or within two months after the occurrence of the study delay. In the event of the timely reporting of the circumstances, the study delay will be registered from the moment the study delay begins. If the student reports at a later time than the two months stipulated in this Article, the study delay will be registered starting from two months before the time of the reporting. Reporting is also essential for making the agreements listed in Article 4 under g.
- 5.3 On behalf of the Executive Board, the Student Dean's Office will determine the period of study delay in the event of circumstances beyond one's control and will confirm this to the student in writing. This is determined on the basis of several factors, including the duration and severity of the special circumstances, the educational programming, the actual incurred delay, and the time in which the delay can be made up. The study delay determined in this way, as expressed in months, is also the maximum period during which the student will qualify for financial support in connection with the concerned report.
- 5.4 Without prejudice to the other provisions in this regulation, the established duration of the study delay will give the student claim to a maximum of four months' compensation per academic year of the nominal study programme duration.
- 5.5 The determination of the starting point of the study delay and the duration of the actual delay as respectively referred to in Articles 5.2 and 5.3 are decisions that the student may appeal to the Examination Appeals Board within six weeks. See <http://www.wur.nl/en/Education-Programmes/Current-Students/student-charter-2016-2017.htm> > legal protection. The decision also informs the student about the possibility of filing an appeal and the deadline for doing so.

**Article 6 Application for support payment on the basis of circumstances beyond one's control or participation as a top athlete (Article 3 d, e, f, g, h and i)**

- 6.1 The application for payment of the financial support related to circumstances beyond one's control or participation as a top athlete (Article 3, sub. d, e, f, g, h, and i) must be submitted before 31 August of the academic year following the academic year in which the study delay was incurred. If the application is not submitted in time, it will not be considered.
- 6.2 The application must be submitted to SSC, along with any relevant supporting documents using the appropriate form <http://www.wur.nl/en/Education-Programmes/Student-Service-Centre/Show-SSC/Forms-Student-Service-Centre.htm> > FOS forms  
The student will be interviewed in person if desired.
- 6.3 The Student Dean's Office will make a decision about the application on behalf of the Executive Board, within a reasonable term of no longer than 8 weeks. The student will be notified of the decision by e-mail or by letter. The decision also informs the student about the possibility of filing an appeal and the deadline for doing so.

**Article 7 Amount of financial support**

- 7.1 The level of financial support per FOS month, as related to circumstances beyond one's control (Article 3, sub. e, f, g, h, and i), is equal to the monthly instalment rate 1 (as established by WUR), multiplied by the number of recognised months of study delay. The maximum duration is the duration established in accordance with Article 5.3 and no more than 24 months over the student's entire period of enrolment in one or more WUR study programmes: a maximum of 12 months in a BSc programme, a maximum of eight months in an MSc programme, and a maximum of four months for any extension year from DUO. In determining the level of the

- student's claim, the student's claim to (DUO) student financial assistance at the time that the uncontrollable circumstances occurred is decisive.
- 7.2 As an exception to the provisions of Article 7.1, the amount of financial support related to circumstances beyond one's control for students who have not been able to qualify for study financing in accordance with the WSF is equal to the amount of the WUR monthly instalment rate 1 plus the maximum supplementary grant, as determined by DUO on an annual basis. If applicable, the fees for the necessary extension of the residence permit will also be reimbursed. In addition, for the period of the number of FOS months granted, these students will pay the institutional tuition fee at the level of the statutory tuition fee. The maximum duration is the duration as established in accordance with Article 5.3, but does not exceed four months for each programme during the period in which the individual is enrolled as a student at Wageningen University.
- 7.3 The level of financial support per FOS month, in connection with administrative activities and participation as a top athlete, as referred to in Article 3, sub. a, b, c, or d for students with study financing or who could lay claim to this, is equal to the amount WUR has set as the monthly instalment rate 2.
- 7.4 The level of financial support per FOS month, in connection with administrative activities and participation as a top athlete, as referred to in Article 3, sub. a, b, c, or d for students as stipulated in Article 4b is twice the amount that WUR has set as the monthly instalment rate 2. If applicable, the fees for the necessary extension of the residence permit will also be reimbursed. In addition, for the period of the number of FOS months granted, these students will pay the institutional tuition fee at the level of the statutory tuition fee.

#### **Article 8 Payment of the financial support**

- 8.1 The support is provided as a gift.
- 8.2 Apart from exceptions in accordance with Article 9.3.3, payment will take place in one single payment, as quickly as possible after approval of the support, and at its earliest in the month immediately following the period in which the entitlement to financial support was acquired.
- 8.3 The applicant can request payment at a later date provided this is during his/her enrolment as a WUR student. This possibility is not available if payment is opted for in accordance with Article 9.3.3. (12-month grants).

#### **Article 9 Additional regulations for administrative grants**

In supplementation or as an exception to Articles 5, 6, 7 and 8, the following provisions apply to the administrative positions addressed in Article 3 under sub. a, b, and c:

- 9.1 Organisations can submit an application for administrative grants in accordance with the Additional regulations concerning administrative grants (Appendix 1). Payment to an individual board or committee member takes place in accordance with Article 9.3.1 – 9.3.4.
- 9.2.1 Organisations that wish to apply for administrative grants must submit their requests to the Executive Board before 1 April of the academic year preceding the academic year for which administrative grants are being requested. Exceptions include the Student Council, the board of the Education Institute, and the board of AID.
- 9.2.2 The Executive Board informs the applicant organisations on its decision about the provision of administrative grants no later than 1 May of the same year.
- 9.3.1 Administrative grants are approved for an organisation according to the number and description of functions as presented by the organisation as part of the most recent extensive review. Condition for the payment of the approved number of months is that all functions described are occupied by Wageningen University & Research students. Consequently, the number of granted months is reduced for 'mixed boards'. The organisation also takes care of the joint submission of individual applications for payment at the time of resignation, separately for each board or committee.

- 9.3.2 For payment of the months of administrative funding that have been awarded by the organisation to individual board or committee members, the organisation must submit an overview of the resigning board and committee members involved to the Student Dean's Office no later than one month following the resignation of one or more board or committee members, together with the appropriate individual applications. The required formats and forms for this overview can be downloaded from the WUR website at student information > forms. Students who participate during more than one board period, apply for payment after each period and at least once per year.
- 9.3.3 Regarding 12-month grants, recipients can opt for monthly payments of the financial support during the period of the administrative activity. In this case, the individual application must be submitted at the beginning of the administrative period, accompanied by the organisation's declaration about the number of months granted to the individual according to the format referred to in 9.3.2.
- 9.3.4 Requests for reimbursement that are submitted later than one month after resigning will not be considered, unless the student or organisation can show that the request was delayed due to circumstances beyond their control.
- 9.4.1 During the entire duration of a student's enrolment in one or more programmes at WUR, he/she can qualify for a maximum total of 12 months of financial support based on administrative activities, or 16 months if a 12-month grant is involved.
- 9.4.2 As an exception to the provisions of Article 20 for students who are active in the university participation bodies (Student Council and the board of the Education Institute) it is possible to accumulate up to 20 months of administrative funding.
- 9.4.3 If during a period there is an overlap between recognised administrative activities and recognised study delay due to circumstances beyond a student's control or participation as a top athlete, the financial compensation will be adjusted to reflect this.

#### **Article 10 Participation as a top athlete**

Students who participate as top athletes (Article 3 under sub. g) can qualify for financial support of a maximum of four months for each academic year and 12 months over the entire duration of enrolment in one or more programmes at WUR. On behalf of the Executive Board, following the recommendation of the Head of the University Sports Centre, and in accordance with the criteria formulated by the NOC/NSF, the Student Dean's Office will decide the type of study delay caused by participation as a top athlete.

#### **Article 11 Transfer from or to another institution**

If a student transfers from or to another institute for higher education, the receiving institute will honour the entitlement to financial support that he/she has already been granted as much as possible, whilst this institute reserves the right to review the entitlements to support in accordance with its own regulations.

#### **Article 12 Hardship clause, anti-abuse provisions, and special measures**

- 12.1 The Executive Board authorises the Student Dean's Office to make decisions about taking special measures for the support of students enrolled at WUR in deviation from the provisions established in these regulations in the event of circumstances that could lead to paramount unfairness if a request for support based on these circumstances would be rejected. This includes special circumstances in the case of applications or payout.
- 12.2 The Executive Board may withdraw financial support or adjust it to the detriment of the person concerned if the claim was incorrectly established and the recipient of the financial support knew or should have known this, or also if he/she abuses these regulations or commits fraud.
- 12.3 In all situations not covered by these regulations, the Executive Board will make a decision on the matter after receiving a recommendation from the Student Dean's Office.

**Article 13 Appeal**

- 13.1 The individual concerned may lodge an appeal to a decision made on the basis of these regulations within six weeks of the date of the decision. The appeal should be directed to the Executive Board, attn. The Facility, Legal Affairs Office, Droevendaalsesteeg 4, 6708 PB Wageningen or via email: [faciliteit@wur.nl](mailto:faciliteit@wur.nl). The procedure is described in the Student Charter > Legal protection.
- 13.2 Within six weeks after the date of the decision regarding an appeal referred to in Article 13.6, the individual concerned may then appeal against this decision to the Higher Education Appeals Tribunal, Oranjestraat 16137, 2500, P.O. Box 16137, 2500 BC, Den Haag ([www.cbho.nl](http://www.cbho.nl)).

**Article 14 Final and transitional provisions, transitional regulations for administrative grants and participation as a top athlete for 2015/2016**

- 14.1 These regulations shall replace all previous regulations on providing financial support to students. This may be cited as the 'Student Financial Support Regulations' and will come into force as of 2015 September 1 for students who lay claim to the special circumstances referred to in Article 3, sub. e, f, g, h, and i.

The regulations for special circumstances as referred to in Article 3, sub. a, b, c, and d will come into force as of 1 September 2016, regardless of whether students fall under the *cohortgarantie* (cohort guarantee).

- 14.2 WUR students who request the payment of FOS months because of recognised administrative activities performed or participation as a top athlete in the 2015/2016 academic year, and for whom the student loan structure already applied during this academic year, will receive for each FOS month the amount of their supplementary grant plus an amount equal to the DUO basic grant that applied in 2015/2016 for students under the governmental cohortgarantie.

In this section, the two categories of Wageningen University student organizations that are 'FOS recognized' are mentioned. For organizations in the first category, the number of FOS months is fixed ('forfaitair'). For organizations in the second category, the number of FOS months depends on quantitative criteria and/ or an advise of third parties.

#### Category A: organizations with a fixed number of FOS months ('forfaitair')

##### *University bodies*

Student Council	144 months (12 persons (p) * 12 months (m))

Number of FOS-months, based on the average number of days per week with an activity for students\* (x) and on the nature of the activities (percentage activities concerning content, being not just 'social': 0-100% (y)). In the weighted product (z), the percentage 'activities concerning content' counts twice. Examples of activities concerning content are: network activities, education evenings, first year's students activity, study association weekend, conference, excursion, promotion of the study programme, information about internships, debate, integration activity etc.

Weighted product  $z = (x * 2y)$ :

Failure to live up to these criteria may result in downscaling of the number of months.

Student associations are divided in two groups depending on if they are accommodated in a building which the association needs to maintain. A building at least includes a bar, a student refectory and should be open to members at least 4 days a week. The additional FOS months for associations with an 'own' building are granted based on the extra workload resulting from the extra obligations (and possibilities) a building brings.

#### *a. ARGO (ft and pt)*

FOS months are based on the combination of sports and social activities and the management of own facilities. These activities include encouraging interaction and integration between (international) students, substantial contribution to Annual Introduction Days program, holding sport events that benefit the image of the University, introduction of new members, training members as coaches and maintaining an alumni network. The facilities to be managed include a fleet of boats, a building (including a student refectory and a bar) and sporting goods. Failure to live up to these criteria may result in downscaling of the number of months.

FOS months are granted based on the number of members-being students enrolled at Wageningen University or registered as an exchange student at WU- as follows:

<150	: to be discussed
150 – 299	: 98 months
300 - 449	: 110 months
450+	: 122 months

#### *b. Other student sports associations (ssa's) (pt)*

The number of FOS months is related to the number of members, being students enrolled at Wageningen University or registered as an exchange student, as follows:

< 35 members (small)	: no months
35 – 79 members (medium)	: 0 – 9 months
80 members or more (big)	: 0 – 18 months

For the EB's decision about if, and how many months (new) sport associations will get, the advice of SWU Thymos will be taken into account.

These 'Regulations' and the policy regarding the Profiling Fund are subject to approval by the Student Council (art. 29 subsection 1 sub c SC Regulations)

#### **B. Objectives**

The WUFP supports the strategy of Wageningen University to attract talented international students from non-EER countries by offering them financial support by means of waiving some or all of the tuition fees.

The WUFP supports the internationalization strategy of Wageningen UR as described in the Strategic Plan and in other internationalization policy documents of Wageningen UR.

#### **C. Budget and budget categories**

The overall budget available for the WUFP will be established by the Executive Board annually and included in the institutional annual budget. The budget will be allocated as a separate budget of the Profiling Fund of Wageningen University. In order to meet the objectives mentioned under B, the following categories will be distinguished:

1. Granting full or partial tuition fee waivers to excellent students from priority countries.
  - a. Top talent students coming from high ranked institutions<sup>1</sup> with a ranking comparable to or higher than WU.

The WUFP support in all cases will be a full or partial waiver to cover some of the tuition fee of an accredited MSc programme at WU for the duration of the studies of the student with a maximum of two subsequent academic years.

For category 1 students (see C.) financial support will be given based on admission of individuals. For category 2 students (see C.) financial support will be given in conformity with the specific arrangements made by the Executive Board.

#### **4. Social Emergency Fund**

The Social Emergency Fund (*Sociaal Noodfonds*) of Wageningen University has the aim of helping students in urgent financial need. To qualify for funding, there must be a situation of urgent, unforeseen, non-structural financial need that is not caused by the student involved. In principle, an interest-free loan is provided. Sometimes the funding is provided as a grant. The Social Emergency Fund Board makes this decision. Students who think they qualify for assistance from the Social Emergency Fund should contact the student counsellors.
