### History of Keele University

Keele University is situated on an estate with extensive woods, lakes and parkland, formally owned by the Sneyd family. The Sneyd family came into possession of the Keele Estate in the mid-16th century. Before the Sneyds, the area was owned by the Knights Templar, a medieval Military Order. The first Keele Hall was built in 1580 and it was rebuilt in 1860. The hall has Grade II listing from English Heritage for its architectural importance. The University itself was founded as the University College of North Staffordshire in 1949 and received its Charter as the University of Keele in 1962. Keele University celebrated its 70th anniversary in 2019.

### Keele mission

We are committed to making a difference in society by providing innovative, high-quality education for students from all backgrounds and by undertaking world-leading research that transforms understanding and brings benefit to society, communities and individuals. As part of the application process students will be required to submit a variety of documents which are particularly important if a Tier 4 visa issued by the UKVI is required. Standard application documents are as follows:

**Exchange students** (i.e. home university has a formal agreement with Keele)

- Personal Statement as completed within application
- Evidence of English Language (if applicable)
  - IELTS 5.5 overall with no component less than 5.5

- Details of any previous UK visas

**Study abroad students** (i.e. home university does not have a formal agreement with Keele and tuition fees are applicable)

## Language requirements

As teaching at Keele is in English, all students must be able to prove they have a sufficient level of English to be able to cope with the course from the beginning. If they are a non native English speaker, students will need to submit an appropriate English Language qualification or attend one of our pre-sessional English courses.

**For study abroad and exchange students we ask for IELTS 5.5 overall with no component less than 5.5.**

Information about our pre-sessional courses can be found on our website:

## Course registration information

The module catalogue is released each May for the upcoming academic year and outlines which modules are available to students and which semester they are being held. Keele outlines its modules as being either level 4, 5 or 6 and this corresponds to 1st, 2nd or 3rd year modules respectively.

We will send a Module Choice Form to students when they have applied, which allows them to pre-register on their chosen course. Some of the modules may clash and alternative courses may need to be chosen when students arrive at Keele. Courses are finalised during the first few days of the semester by meeting the Subject Tutors and Personal Tutor. Further details about this will be given during International Orientation. **PLEASE SEE COVID-19 INFORMATION SECTION BELOW FOR ADDITIONAL INFORMATION.**

## University grading system

Keele courses are divided into modules. Successful completion of a module will result in a student gaining a pre-defined number of credits at a specific level. Modules are assessed at the end of the module on a percentage scale.

<b>Class I</b>	70 - 100%
<b>Class II i</b>	60 - 69%
<b>Class II ii</b>	50 - 59%
<b>Class III</b>	40 - 49%
<b>Fail*</b>	35 - 39%
<b>Fail</b>	0 - 34%

These are the final degree classifications and all marks above 40 are considered to be satisfactory. The majority of students receive marks in the 50 - 69% range. A mark of below 40% for an individual module is a fail and no credits are awarded for the module.

\*Grade may be compensated at the discretion of the subject board

## Teaching Arrangements for 2020/21

The COVID-19 situation means teaching may not be in the same format as previous academic years. Arrangements for how modules will be taught and assessed will be set by each individual School. If you are taking modules in a number of different Schools, you should review the guidance provided by each School.

The weblink <https://www.keele.ac.uk/qa/programmespecifications/undergraduate> provides Course Information Documents which outline how each programme within each School will be taught and assessed. There is also a general Study Abroad document that provides basic information about the Study Abroad programme at Keele. You should read the document in the tab called 'Variations for 2020/21 (all years of study)' for each School you will be taking modules in as this will outline the teaching arrangements for the School.

Please note: Arrangements are subject to change but we will do our best to update all students and partners as soon as possible.

## Accommodation: Spring 2021 Semester

In Spring semester 2021, due to COVID-19 restrictions, accommodation on campus may be limited and therefore we cannot guarantee all students will be allocated accommodation. We advise students to apply by the accommodation deadline where possible and will communicate as soon as possible if there are any changes to the arrangements.
