

<b>Leiden University</b>	<b>Clinical Kidney, Pancreas and Islet transplantation</b>		
<b>Course description</b>	In this course you will learn about clinical kidney, pancreas and islet transplantation and its challenges.		
<b>Domain</b>	Medicine		
<b>Keywords</b>	Transplantation		
<b>Prerequisites</b>	None		
<b>Level</b>	Bachelor		
<b>Language</b>	English		
<b>Number of credits and workload</b>	2 credits	9 hrs per week	84 hrs in total
<b>Semester period and Start date course</b>	Semester 2	Start date: 24 September 2018	
<b>Application deadline</b>	17 September 2018		
<b>Full course description</b>	Kidney transplantation is a major advance of modern medicine which provides high-quality of life for patients with end-stage renal disease. What used to be an experimental, risky, and very limited treatment option more than 50 years ago is now routinely performed in many countries worldwide. The number of renal transplants is expected to rise sharply in the next decade since the proportion of patients with end stage renal disease is increasing.
