

MISTER LUPINI

25g of protein!

Healthy plant proteins made into a **burger** for you and our planet to enjoy

Do you love umami? Do you love garlic and fenugreek, and a hint of black pepper?

So do we!

We have combined those wonderful flavours with lupine and healthy fats and have made them into a burger, with the help of heat and pressure for firmness.

Our goal is to make it easy for you to be kind to the **planet** and to let you enjoy a vegan alternative to meat that complements every meal, every day
