

Keynote speakers:

Matthew McIntosh

Microbiology and Molecular Biology
Justus-Liebig-Universität, Giessen, Germany

Gene expression and regulation in *Rhodobacter sphaeroides*

C. Neil Hunter

Department of Molecular Biology and Biotechnology
University of Sheffield, UK

The photosynthetic apparatus of *Rhodobacter sphaeroides*

Matthew Styles

Isobionics BV,
Geleen, The Netherlands

Producing fragrance and flavour ingredients in *Rhodobacter*

Anita Loeschcke

Molecular Enzyme Technology
Heinrich-Heine-Universität, Düsseldorf, Germany

Engineering terpenoid production in *Rhodobacter capsulatus*

Siegfried Vlaeminck

Department of Bioscience Engineering
Universiteit Antwerpen, Belgium

Exploring *Rhodobacter* species and other purple bacteria for sustainable microbial protein applications

Tim J. Donohue

Department of Bacteriology
University of Wisconsin, USA

Modeling and mining the activities of *Rhodobacter* for society
