

Extra requirements Data II course

When participating in the Data II course students will need a laptop that meets the following requirements.

Extensive system requirements for the software package we use:

- Enough RAM (> 8 GB minimum);
- Strong processor (minimal 4 cores, for example an Intel i7 quadcore);
- And above all a good strong graphics card with his *own* memory and 3D capability;
- Extensive system requirements for the software package we use:
 - <https://pro.arcgis.com/en/pro-app/get-started/arcgis-pro-system-requirements.htm>
 - Don't go here for the 'minimum' requirements, but at least for 'recommended'.
