

## Price winners Research Award up to now

The Research Award of University Fund Wageningen (UFW), heretofore 'Landbouwhogeschoolfondsprijs', was instituted in 1959 by the former foundation 'Landbouwhogeschoolfonds' for 'him or her, who published a scientific agricultural study of exceptional value'.

In the early years, nearly every year a prize was awarded to one or more researchers of Wageningen University & Research. When UFW instituted other prizes in addition, the Research Award was recorded in a prize cycle of four years. Since 2012 the frequency of awarding has been adapted to a cycle of three years. Since 2018 UFW awards the Research Award every year.

The prize winners since 1959 up to now are:
