

## Application form subsidy for external training locations

SSAs who organize trainings at an external location outside their regular training schedule can apply for a subsidy once per calendar year for the organization of a training at an external location if that training is related to the sport of the relevant SSA. An external location is considered an external location when the location differs from the regular training location.

At least one month before the training will take place at an external location, an application must be submitted to the Board of SWU Thymos. This application consists of information about the training at an external location, a balanced budget and how SWU Thymos is made clearly visible as a sponsor.

Within three months after the event, an evaluation report must be submitted to the Board. The evaluation report consists of: a general evaluation of the event, an overview of the promotion of SWU Thymos and a settlement. The Board of SWU Thymos decides whether the evaluation report is approved and the subsidy amount is paid.

The subsidy is determined on the basis of the budget. The subsidy amount is 50% of the rental costs or entrance fee of the external location, up to a maximum of € 150,-.
