Master courses in English: Master Agrofood Chain

<http://toulouseagricampus.fr/Formation/Formation-initiale/Master-AgroFood-Chain>

Contacts for more information:

jean.kallerhoff@ensat.fr

genevieve.nguyen@ensat.fr

Engineering degree courses in French:

<http://www.ensat.fr/fr/formations/formation-ingenieur/specialisations.html>

Master courses in French: <http://www.ensat.fr/fr/formations/masters.html>

Learn French: 4 weeks in August :

<http://www.enseiht.fr/fr/actualites/summer-school-2018.html>

French “survival kit” for students enrolled in English Master programs

Scientific French for students enrolled in Engineering programs

All students will enjoy Toulouse cultural, historical and sports program

Application Procedures

For partner universities : <http://www.ensat.fr/en/international/incoming-exchange-students.html>

All candidates must be nominated by the international office of their home University and nominations will be addressed to [the ENSAT International Office \(rel-int@ensat.fr\)](mailto:rel-int@ensat.fr)

Nominated candidates will receive a link to submit their e-application on the mobility platform.

- Download, fill and send the pre-application form, making sure that the name of the specialization or Master course is mentioned as well as the list of course modules that will be followed.
- **Upload all the documents required on the e-application mobility platform : More information on:** <http://www.ensat.fr/en/international/incoming-exchange-students.html>

Application Deadlines

June 1st: For the Fall semester starting Mid-September

November 1st : For the Spring semester starting 1st February

ENSAT Contacts

Head of International Relations

Prof Mrs Jean Kallerhoff, jean.kallerhoff@ensat.fr

Administrative Officer

Mrs Françoise Eftymiades francoise.eftymiades@ensat.fr

Academic Advisor for the two-year Agrofood Chain Master fully held in English (Admissions either in Master 1 or 2 level)

Assistant Professor Mrs G. NGuyen genevieve.nguyen@ensat.fr

Academic Advisors for engineering specialisation courses (Master 2 level), held in French

Plant Biosciences: Professor Mrs Martina RICKAUER: martina.rickauer@ensat.fr

Agrogeomatics: Assistant Prof. Mr David SHEEREN: david.sheeren@ensat.fr

Agro-Management – Project management, Agri-business: Assistant Prof. Mrs Valérie OLIVIER: valerie.olivier@ensat.fr

Food Industry – Innovation and product quality: Professor Mrs Florence MATHIEU: florence.mathieu@ensat.fr

Livestock farming systems: Assistant Prof. Mrs Zulma VITEZICA: zulma.vitezica@ensat.fr

Environmental Engineering – Water and solid waste management. Professor Mr Eric PINELLI: Eric.Pinelli@ensat.fr

Environmental quality and resource management – risk management, management of agricultural impacts : Professor Mr Pascal LAFFAILLE: pascal.laffaille@ensat.fr

Computational biology for Biotechnologies: Assistant Professor Mr Mohammed ZOUINE: mohamed.zouine@ensat.fr

Agro ecology, environment, territories – sustainable development and land use, Professor Mr Jean-Pierre SARTHOU: Jean-Pierre.Sarthou@toulouse.inra.fr

The National Diploma in Oenology

Professor Mrs Patricia TAILLANDIER: Patricia.Taillandier@ensiacet.fr
<http://www.ensat.fr/fr/formations/diplome-national-d-oenologue.html>

Research Labs for internships

<http://www.ensat.fr/en/research/our-research-laboratories.html>

Academic Information

Language requirements

Engineering courses: French B1+ / English B1+
Agrofood Chain Master course: English B2

Study requirements for incoming students

The learning agreement must contain at least **20 ECTS per semester** and in the **same engineering or Master course**). Students will need to have proven records in the prerequisites to follow the courses they wish to enroll in.

Our grading system

Our grading system requires a minimum score of 10 to validate every Academic Unit (UE). It is a 20-point scale with the following honours:

0-<5 = fail

≥5-10 = students can take another exam in 2nd session,

10 = average, (≈ GPA of 2)

12 = good, (≈ GPA of 3)

14 = very good, (≈ GPA of 3.7)

≥16 = excellent, (≈ GPA of 4.33)

18 and above = congratulations.

In practice, it is not a linear scale, therefore outstanding students get a score ≥15. (≈ GPA of 4)

Miscellaneous

University Dormitories (CROUS)

There are some rooms in dorms available to ENSAT international students.

General information on accommodation: <http://en.univ-toulouse.fr/life/accomodation>

Private Accomodation

<http://en.univ-toulouse.fr/life/accomodation>

Cost of living

Accommodation: ≈250 €/month (CROUS Dormitories) and as from 300 €/month (private)

Public transport (bus, tram and metro) 8€ per year for the pass card and 10 €/month for students <26 years of age

University restaurants : 3.25€/meal

Insurances

1. Compulsory civil liability insurance: $\approx 15\text{€}$ / year, payment on registration
2. Compulsory housing insurance $\approx 25\text{€}$ /year
Note: for instance “Policy 2” of ADH www.assurances-etudiants.com covers civil liability & accommodation $\approx 30\text{€}$ / year
3. Health insurance: Free for all students as from September 2018. Covers 70% of medical costs.
4. Complementary health insurance: between 12€ and 35 € per month, depending on protection level required. Covers the remaining 30% of medical costs. This is highly recommended.

Visa

EU students: No visa required

<http://www.campusfrance.org/fr/page/sinscrire-a-partir-dun-pays-de-lunion-europeenne>

Non-EU students: Contact the consular section of the French Embassy of your country

<http://www.campusfrance.org/fr/rubrique/preparer-son-sejour>

Logistics and Assistance

<http://www.ensat.fr/en/student-life/organize-your-stay.html>

Toul’Box proposes a comprehensive set of services designed to help you to prepare your stay, from early project to complete installation. (Welcome Pack: free / Start Pack 100€ / All in Pack 220€).
