

Symposium “Future Catalysis”

Tuesday, November 28th, 13:30
Room C0763, Forum Building, Wageningen

- 13.30 Opening
- 13:35 **Bert Weckhuysen (Utrecht):**
Catalysis for the Production of Chemicals and Fuels from Biomass
- 14:35 **James Clark (York):**
Towards a Circular Economy using Green Chemistry
- 15:35 Break
- 16:00 **David Strik (Wageningen):**
Bioelectrochemical Chain Elongation: a Hypothetical Framework of Catalysis & Electron Transfer Mechanism
- 16:30 **Lars Kiewidt (Wageningen)**
From Ångstroms to Meters: on the Role of Multiscale Modelling in Heterogeneous Catalysis
- 17:00 Closing remarks and drinks

Information: Harry Bitter (harry.bitter@wur.nl)
