

Setup your WUR email on an iPhone

- Press the Home button to go to the home screen
- Tap on the *Settings* application icon to open Settings
- Tap on *Mail, Contacts, Calendars*.
- Choose *Add Account*.

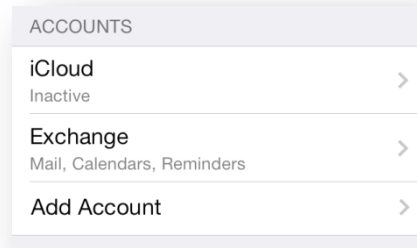

- Tap on *Microsoft Exchange*
- In the Email box enter your own e-mail address in the following format **Firstname.Lastname@wur.nl**.
- In the Password boxes enter your password.
- Tap on Next

- Make sure that the option *Mail* is set to **ON** and choose if you also want to use your *Contacts*, *Calendars* and *Reminders* on your iPad.
- Tap on *Save*

- In the field *Accounts* tap on *Exchange*.

- Tap on *Mail Days to Sync*.

- Select how many days back you want to synchronize your mail with the iPad. If you do not have many items in your mail folders you can choose *No Limit* or else choose another option to prevent that synchronizing your mail folders will take too long.
- Tap on *Exchange* to go back.
- Tap on *Mail, Contacts, Calendars* to go back.
- Tap on *Fetch New Data*.

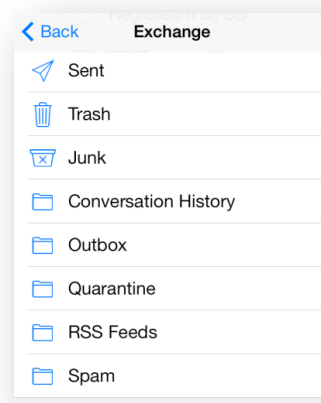

- Tap on *Every 30 minutes* and make sure that the option *Push* is set to on.

- Tap on *Exchange*.

- Scroll down to *Pushed Mailboxes*.
- Mark all folders for which you want updates to be pushed (all other folders can be checked manually) and tap on back.

- Close the settings screen by pressing the *Home* button.
