

Connecting an iPhone to the Wageningen UR Wireless network

Guide

- Go to the home screen of the iPhone.

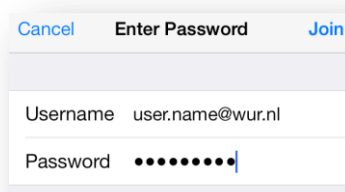

- Tap on the *Settings* icon.
- Tap on Wi-Fi icon.

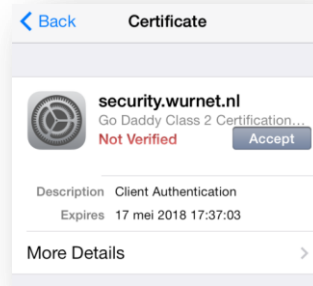

- The available Wi-Fi networks will be shown.
- Do you have a personal WURnet account? Tap on wur-user of eduroam when you want to use Wi-Fi network on other universities with a eduroam network.
- When you have a WUR wireless-guest account? Tap on wur-guest.
- When you do not have a WURnet account and you are not from a EDUroam participating institution? A WUR Wireless Guest account must be created first.

- Enter your email-adress and password and tap on Join.

- Tap on Accept to accept the certificate.

- When the network connection has succeeded you will see the Wi-Fi icon in the left top corner and a check mark besides the Wi-Fi network you have chosen.
- Tap on Settings to go back.
- Press the Home button to return to the Home screen.
