If you come to a WUR location

Use this checklist to take responsibility to avoid a lockdown on WUR locations. Of course you work from home as much as possible. If not, make sure you check this form every time you come to a WUR location.

Stay at home for 10 days*
If symptoms develop later, see also "Do you have symptoms yourself?".

Stay at home*
For mild symptoms¹: Get tested for free and voluntarily. Call: 0800-1202 or +31-850659063 or make an appointment online using your DigiD on coronatest.nl. (choose "English" at the bottom of the page).
In case of serious symptoms¹: Call your doctor or the out-of-hours GP service ("huisartsenpost") immediately.

Stay at home*
Does the test indicate you have COVID-19?

Stay at home*
Does the test indicate that your housemate has COVID-19?

Stay at home for 10 days*
If you develop symptoms during this period, see "Do you have symptoms yourself?".

Stay at home
Inform your manager and make agreements about working from home or replacement on location.
Inform your direct colleagues that you can be reached online.

Stay at home and follow the advice of the GGD.

More information
For more information and the current rules, visit RIVM.nl and rijksoverheid.nl.

There may be more situations where you have to stay at home. Look for this on rijksoverheid.nl.

¹ Mild symptoms: a stuffy or runny nose, sneezing, a sore throat, a mild cough, a sudden loss of smell or taste.
Serious symptoms: In addition to mild symptoms, you also suffer from shortness of breath and/or fever (38.0°C or higher).

² Risk groups: see RIVM.nl for the risk groups. WUR also counts informal caregivers for the mentioned risk groups among the risk groups.

Rules for working at WUR locations
Stick to the rules: Do you see someone around you with symptoms or who does not follow the rules? Then address him or her kindly.
Get permission from your manager and register in advance.
Think of registration on arrival and departure.

Keep 1.5m distance
Follow indicated routes
Work as much as possible at home
Avoid crowds
Wash hands often
Sneeze and cough in elbow
