

Connecting an iPad to the Wageningen UR Wireless network

Guide

- Go to the home screen of the iPad
- Tap on the *Settings* icon
- Check if the *General* settings are selected.
- Tap on *Network* in the column on the right.

- Tap on *Wi-Fi* on the right.
- The available *Wi-Fi* networks will be shown
- Do you have a personal *WURnet* account? Tap on *wur-user* of *eduroam* when you want to use *Wi-Fi* network on other universities with a *eduroam* network.
- When you have a *WUR* wireless-guest account? Tap on *wur-guest*.
- When you do not have a *WURnet* account and you are not from a *EDUroam* participating institution? A *WUR* Wireless Guest account must be created first.
- Enter your email-address and password and tap on *Join*

- Tap on Accept to accept the certificate.

- When the network connection has succeeded you will see the Wi-Fi icon in the left top corner and a check mark besides the Wi-Fi network you have chosen.
- Tap on Network to go back
- Tap on General to return to the General Settings. Press the Home button to return to the Home screen. Continue with the next step
