| 11:00 | Keynote Rob Busink  
         | (11 am) |
| 12:00 | Lunch (12:00) |
| 13:00 | Panel sessions 1  
         | (13:30-15:00) |
| 14:00 | Coffee (15:00) |
| 15:00 | Panel sessions 2  
         | (15:30-17:00) |
| 16:00 | Free evening in Wageningen |
| 17:00 | Return home |
| 18:00 | Drinks & Conference dinner at Kasteel Doorwerth (18:30) |
|       | Return to Wageningen (21:30) |
Keynotes

Wednesday. April 11, 11:00 (am)

**Forests and the SDGs: the need for an integrated approach**

Rob Busink, Ministry of Economic Affairs

Thursday. April 12, 9:00 (am)

**Avoiding deforestation and the politics of (un)sustainability: insights from REDD+ and the New York Declaration on Forests**

Maria Brockhaus, University of Helsinki

Friday. April 13, 9:00 (am)

**Forests for Food and Nutrition: exploring the linkages and understanding the tradeoffs**

Bhaskar Vira, University of Cambridge
WIFI: user = pavilion / password = wur100years

Additional activities
Workshops collaborative European projects
Various collaborative project consortia
Meeting to discuss future collaboration
Thursday, April 12, 19:00 (during conference dinner)
Scientific board, organisation committee, representatives of the forest policy networks

Invitation to 3IFPM 2020
Friday, April 13, 10:00 (following keynote)
Lisbet Christoffersen, University of Copenhagen

2IFPM Sessions

</table>
1. **Forest governance and reform (Panel session 1)**
   - Mustalahti, Hyle, Zamora, Devkota & Tokola (University of Eastern Finland): Towards “two way responsibilization” in responsive forest governance: learnings from Tanzania Nepal and Mexico (climate change, decentralization).
   - Kavaliauskas (Aleksandras Stulginskis University, Lithuania): Analysis of Forest Policy Processes implement reform of state forest enterprises in Lithuania.
   - Hasnaoui & Krott (University of Goettingen, Germany/Laboratory of Silvo-Pastoral Resources, Tunesia): Forest governance within the Arab Spring: Case of State Forests in Tunesia

2. **Cancelled**

3. **Participatory and sustainable forest management in tropical countries (Panel session 1)**
   - Degnet, van der Werf, Ingram & Wesseler (WUR-AEP/FNP, The Netherlands): Do locals have a say? Local participation in governance of forest plantations in Tanzania and Mozambique.
   - Malkamäti, Ylä-Antilla, Korhonen-Kurki & Toppinen (University of Helsinki, Finland): Weaving with the flow of information: transaction costs as endogenous drivers of network structure in South African tree plantation policy.
   - Nchanji (University of Eastern Finland): Engendering collaborative forest management in selected protected areas in Cameroon: Reality versus Ideas.
   - Faggin & Behagel (WUR-FNP, The Netherlands): Institutional bricolage of SFM implemented in rural settlements in Caatinga biome, Brazil.

4. **Steering forest owners (Panel session 1)**
   - Andersson & Keskitalo (SLU/Umeå University, Sweden): Constructing subjectivity and governing forest: the distant consumer in Swedish forestry.
   - Makrickiene, Mozgeris, Brukas, Brodrechtova, Sedmak & Salka (Aleksandras Stulginskis University, Lithuania/Technical University Zvolen, Slovakia): Analysis of command-and-control forest governance model in Lithuania and Slovakia.
   - Maier (State Forest Research Institute Baden-Württemberg, Germany): At the front lines in public forests – a street-level perspective on forest policy implementation in Germany and the US Pacific NorthWest.
   - Lodin & Brukas (SLU, Sweden): Ideal vs Real forest management: Challenges towards implementing production oriented forest management ideals in the small-scale forestry in Sweden.

5. **Exploring governance outcomes (Panel session 2)**
   - Fischer & Günter (Thünen Institute, Germany): Governance effects on de- and reforestation in the tropics.
   - Nago, Krott, Ongolo & Giessen (University of Göttingen/EFI Germany): Forest diplomacy in Congo basin: the failure machine?
   - Mijailoff, Burns & Giessen (National University of La Plata Argentina/EFI Germany): The role of the World Bank in an international environmental conflict: The case of the pulp mill
conflict between Argentina and Uruguay.

6. **Forest policy in the EU (Panel session 2)**
   - Yakusheva & Brockhaus (University of Helsinki, Finland): Whose voices are heard and why? Exploring LULUCF negotiations in the European Union
   - Böhling (TU Munich, Germany): Forest policy in the EU: Driven by climate policy?
   - Baulenas (Freiburg University, Germany): Policy integration between the water and forest sectors across the EU28: not all policies are created equal.
   - Wilkes-Allemann & Lieberherr (ETH Zuerich, Switzerland) – How National Forest Programs affect policy change: A Swiss Experience.

7. **Livelihoods and communities (Panel session 2)**
   - Afriyie, Zabel & Damnyag (Bern University of Applied Sciences, Switzerland/Forestry Research Institute, Ghana): Survive or perish. Coping strategies of Ghanian cocoa farmers under climate change.
   - Gordillo (Thünen Institute, Germany): Estimating households’ WTP for forest conservation in Ecuador: results from a national CV survey.

8. **Increasing state control (Panel session 2)**
   - Vukotic (University of Copenhagen, Denmark): Forestry and Environmental Rule in Serbia
   - Secco, Masiero & Pettenerella (University of Padova, Italy): Strengthening the role of Central states in forest resources management: a new trend?

9. **Innovations in forest governance (Panel session 3)**
   - Rogelja, Ludwig, Weiss & Secco (University of Padova, Italy/EFICEC-EFISEE, Austria): Implications of policy framework conditions for the development of forestry based social innovation in Slovenia.
   - Primmer, Krause, Mann, Stegmaier, Varumo, Paloniemi, Brogaard, Geneletti, Sattler, Kluvankova & Schleyer (Finnish Environment Institute et al.): A framework for the analysis of institutions conditions innovations for forest ecosystem service provision.
   - Lovrić, Lovrić & Mavšar (EFI Finland): Innovations enabling the forest sector transition towards bioeconomy.
   - Buijs (WUR - FNP, The Netherlands): Active citizens and urban forestry: fostering the diversity of stewardship through mosaic governance.

10. **FLEGT & traceability (Panel session 3)**
    - Susilawati (Australian National University): Compliance of small holder timber value chains in East Java with Indonesia’s timber legality verification system.
    - Derous & Verhaeghe (Centre for EU Studies, Belgium): Delving into the nexus of a nexus: The VPAs.
11. Forest and society (Panel session 3)
- Mallow & Pütlz (EFICEEC, Austria): Navigating the value jungle – societal perceptions of forest ES and its policy implications.
- Dobrovolsky (Saint Petersburg State Forest Technical University, Russia): Features of forest use for religious activities in Russia.
- Elands & Remmerswaal (WUR-FNP, Netherlands): Responsibility for nature starts from childhood experiences in nature areas.
- Konczal (EFI Germany): Societal dimensions and driving paradigms of Polish forestry. Anthropological contribution to forest policy studies in Poland.
- Ambrose-Oji, Dunn & Stringer (Forest research, UK/Gloucestershire Wildlife Trust): Investigating attitudes to the reintroduction of pine marten in the Forest of Dean: The role of evidence in forest governance.

12. Forestry and forest ownership (Panel session 3)
- Põllumäe (Estonian University of Life Sciences): Discourses on the development of private forestry in Estonia: is there consistency between policy implementation and inner views?
- Neitzel, Feil & Seintsch (Thünen-Institute Germany): Climate protection in small private forests – forest owners and society.
- Selter, Sonnhoft & Kleinschmit (Freiburg University, Germany): In the jungle of deregulation: Path-dependence and path-creation in forest extension services and support in Baden-Wuerttemberg.
- Stens & Mårald (Umeå University, Sweden): What’s the problem with forest property rights?
- Erkkilä, Hujala & Mustalahti (University of Eastern Finland): Young people as forest owners: challenges for policy and research

13. POSTER SESSION
- Kang & Weber (TU Dresden, Germany): The dynamics of policy network in the international development cooperation forest project between South Korea and Mongolia.
- Begemann, Giessen & Winkel: Frontiers of global forest governance – a Delphi assessment
- Garcia, Burns & Goya (National University of La Plata Argentina): Actors’ power in defining SFM: implementation of criteria and indicators at the local level.

PANELS, DAY 3: Friday 13 April

14. Actors & networks in forest governance and management (Panel session 4)
- Maier & Wirth (FVA Freiburg, Germany): The world(s) we live in: agency collaboration in forest management.
- Teder & Kaimre (Estonian University of Life Sciences): Environmental vs forestry views on and
stakeholders’ satisfaction with recent Estonian forest policy processes: Estonian ‘Forest war’ 2016 - 2018.
− Schultz (Colorado State University, USA): Policy Design to Address Scale Mismatches and Related Challenges: Lessons from US Forest Governance

15. Bioeconomy (Panel session 4)
− Lovrić, Lovrić & Mavsar (EFI Finland): Mapping forest bioeconomy research capacities and activities in Europe.
− Beer & Böcher (Otto-von-Guericke-Universität Magdeburg): Political processes of bioeconomy between economy and ecology: The role of wood as resource for bioenergy production in the bioeconomy.
− Giurca (Freiburg University Germany): The networks “we have” vs the networks “we see” in Germany’s wood-bioeconomy.
− Ranacher (Kompetenzzentrum Holz Austria): Analysis of online news media coverage on forest management: depicting the peril not the potential.

16. Inclusion of local communities in tropical forestry (Panel session 4)
− Christoffersen (University of Copenhagen, Denmark/Forests of the World): Spaces of repression, resistance and accommodation. An ethnographically informed history about a contested consultation.
− Devkota (University Eastern, Finland): Social inclusion and deliberation in response to REDD+ in community forestry: Evidence from Nepal’s Terai region.

17. Conflicts and opposing views in forestry (Panel session 4)
− Bethmann & Simminger (FVA Freiburg, Germany): Louder than words. Form and function of speech acts in a forest conflict.
− Dubrovskus Vanaga, Šeļezņovs, Krūmiņš, Silamiķele (LLV, Latvia): Challenges for increase of forest management efficiency in Latvia.
− Cosyns, Joa, Mikoleit, Krumm, Schuck, Winkel, & Schulz (WSL Switzerland/Freiburg University Germany/EFI Germany): The role of beliefs and expertise in solving trade-offs between economic and ecological objectives in forest management: a thinning exercise.
− Brukas, Stanislovaitys, Kavaliauskas & Gaizutis (SLU, Sweden/ Aleksandras Stulginskis University, Lithuania): Protecting or destructing? Local perceptions of environmental considerations in Lithuanian forest management.
− Niedzialkowski & Shkaruba (Polish Academy of Sciences/Central European University Hungary/3Erda RTE, Netherlands): Can FSC certification succeed and fail in the same forest? Institutional politics of forest management in transboundary Bialowieza Forest.
