# Setting up wireless on macOS

Introduction

In these instructions we will explain what actions have to be taken to connect your Mac with the wur-user network. Please note, these instructions are provided only for informative purpose without addional support by us. They have been compiled using macOS Sierra 10.12.2 – following these instructions is fully at your own risk.

Requirements

- A Mac running macOS (OSX).
- A WURnet-account. This is your employee or student username with associated password.

Guide

- Click the WiFi icon in the menu bar, and select wur-user.
- You will see the following screen.

- Set the *Mode* section to **Automatic**.
- In the *Username* section type your WUR email adres **(firstname.lastname@wur.nl).**
- In the *Password* section type the corresponding password.
