|                      |             | Microeconomics II                                   | 6 ECTS     | <a href="#">Course Teaching Plan</a> |

### Exchanges within the Bachelor Degree in Economics:

**Regular Students:** they may go on exchange during the third or the fourth year of their Bachelor degree and during the first term, the second term or the whole academic year. However, although we try to encourage them to go on exchange during the second term of the 4<sup>th</sup> year, most of go on exchange during the first term of the 4<sup>th</sup> year

| Academic year        | Term        | Courses                             |                  |                                       |                             |                                |
|----------------------|-------------|-------------------------------------|------------------|---------------------------------------|-----------------------------|--------------------------------|
| 3 <sup>rd</sup> year | Autumn term | International Economic Organization | Econometrics I   | Microeconomics III                    | Tax System I                | International Economics Policy |
|                      | Spring term | Macroeconomics III                  | Econometrics II  | Spanish Economic Policy and EU Policy | Regional and Local Treasury | Elective                       |
| 4 <sup>th</sup> year | Autumn term | History of Economic Thought         | Econometrics III | Microeconomics IV                     | Tax System II               | Elective                       |
|                      | Spring term | Macroeconomics IV                   | Elective         | Elective                              | Bachelor Final Thesis       |                                |

**EUS Students:** they go on exchange during the first term of their 4th year

| Academic year        | Term        | Courses                             |                       |                                       |                             |  |                                    |
|----------------------|-------------|-------------------------------------|-----------------------|---------------------------------------|-----------------------------|--|------------------------------------|
| 3 <sup>rd</sup> year | Autumn term | International Economic Organization | Econometrics I        | Microeconomics III                    | Tax System I                | International Economics Policy           | International Economics            |
|                      | Spring term | Macroeconomics III                  | Econometrics II       | Spanish Economic Policy and EU Policy | Regional and Local Treasury | Game Theory and Application in Economics | Twentieth-Century Economic History |
| 4 <sup>th</sup> year | Autumn term | History of Economic Thought         | Econometrics III      | Microeconomics IV                     | Tax System II               | Macroeconomics IV                        |                                    |
|                      | Spring term | 8 month Internship                  | Bachelor Final Thesis |                                       |                             |  |                                    |

\*Marked in green, the term when usually our students go on exchange.

\*\*The ones marked in red cannot be done abroad because of the internal regulation of our Faculty.
