**Can I come to the Open Day?**

**I’m Protected**

Check the blue box that applies

- I tested positive in a **qPCR test** (from GGD)
- I have Corona linked complaints
- I don’t have Corona linked complaints
- I tested positive in a self-test and/or have Corona linked complaints
- Either the GGD or the person itself informed me that I was a close contact of someone tested positive or I got a notification from the CoronaMelderApp
- A house-mate tested positive in a qPCR test (from GGD) and we’re limiting contact wherever possible.
- Another situation
- None of the above?

**Don’t come to campus**

- For 7 days after onset of symptoms and being at least 24h without complaints
- For the next 3 days after test moment
- Don’t come to our campus

**You’re welcome on campus**

- Wherever possible keep your distance
- Wash or disinfect hands
- Sneeze and cough in elbow
- Wherever possible keep your distance
- Self-test is advised prior to coming to campus

---

**Rules at the open day of Wageningen University**

**Wear** nose-mouth mask where indicated

**Follow** indicated routes

**Wash or disinfect** hands

**Sneeze and cough in** elbow

**Wherever possible keep** your distance

---

*You’re considered protected when you finished your Pfizer/Moderna/AstraZeneca vaccination series more than 2 weeks ago, your Janssen vaccination more than 4 weeks ago, went through a confirmed Covid19 infection less than 6 month ago, or are protected with another WHO EULPQ approved vaccine.

*Corona linked complaints are: sudden loss of taste/smell and/or fever and/or shortness of breath and/or cold symptoms such as nasal cold, runny nose, sneezing, sore throat that are not directly linked to a known condition (e.g. hay-fever)

*Close contact: at least 15 minutes contact <1.5m cumulative within 24h or when you had a major risk for infection e.g. hugging or kissing
Can I come to Campus?

I’m Not Protected* (protected? see previous page)

I tested positive in a qPCR test (from GGD)
- I have Corona linked complaints
  - Don’t come to campus, get tested at the GGD a.s.a.p. and wait for the test result
  - Test result Positive
    - Test result Positive
      - GGD advises to avoid crowds and/or keep 1.5m distance to others?
        - Don’t come to Campus
        - Otherwise, you’re welcome
    - Test result Negative
      - Don’t come to campus, get tested on day 5 and 10 and wait for test result

I tested positive in a self-test and/or have Corona linked complaints#
- I don’t have Corona linked complaints
  - Don’t come to campus for 7 days after onset of symptoms and being at least 24h without complaints
- Either the GGD or the person itself informed me that I was a close contact of someone tested positive or I got a notification from the CoronaMelderApp
  - A house-mate tested positive in a qPCR test (from GGD) and we’re limiting contact wherever possible.
  - Don’t come to campus for 10 days, get tested on day 5 and 10 and wait for test result
  - Test result Positive
    - Test result Positive
      - GGD advises to avoid crowds and/or keep 1.5m distance to others?
        - Don’t come to Campus
        - Otherwise, you’re welcome
    - Test result Negative
      - Test result Negative on day 5 and 10

Another situation
- Check with your regional GGD
  - You’re welcome on campus

None of the above?
- You’re welcome on campus

*You’re considered protected when you finished your Pfizer/Moderna/AstraZeneca vaccination series more than 2 weeks ago, your Janssen vaccination more than 4 weeks ago, went through a confirmed Covid19 infection less than 6 month ago, or are protected with another WHO EULPQ approved vaccine.
#Corona linked complaints are: sudden loss of taste/smell and/or fever and/or shortness of breath and/or cold symptoms such as nasal cold, runny nose, sneezing, sore throat that are not directly linked to a known condition (e.g. hay-fever)
°Close contact: at least 15 minutes contact <1.5m cumulative within 24h or when you had a major risk for infection e.g. hugging or kissing

Rules at the open day of Wageningen University
