

Nouragues

Dynamics and plant-animal interactions in a neotropical rainforest.

Frans Bongers, Pierre Charles-Dominique, Pierre-Michel Forget and Marc Théry (editors)
2001 Kluwer Academic Publishers

CONTENTS

EDITORS PREFACE

PART I. INTRODUCTION

1. The field station
Pierre Charles-Dominique..... 1
2. Geography and climate
Michel Grimaldi and Bernard Riéra..... 9
3. Scales of ambient light variation
Frans Bongers, Peter J. van der Meer and Marc Théry..... 19

PART II. PLANT COMMUNITIES

4. The lowland high rainforest: structure and tree species diversity
Odile Poncy, Daniel Sabatier, Marie-Françoise Prévost and Isabelle Hardy..... 31
5. The low forest (Nouragues Inselberg)
Denis Larpin..... 47
6. Plant communities on a granitic outcrop
Corinne Sarthou..... 65
7. Palaeoclimates and their consequences on forest composition
Pierre Charles-Dominique, Patrick Blanc, Denis Larpin, Marie-Pierre Ledru, Bernard Riéra, Thierry Rosique, Corinne Sarthou, Michel Servant and Christophe Tardy..... 79

PART III. VERTEBRATE COMMUNITIES AND EVOLUTIONARY ECOLOGY

8. Diet and population densities of the primate community in relation to fruit supplies
Bruno Simmen, Catherine Julliot, Françoise Bayart and Elisabeth Pagès-Feuillade..... 89
9. Comparative positional behaviour of five primates
Dionisios Youlatos and Jean-Pierre Gasc..... 103
10. The bat community
André Brosset, Pierre Charles-Dominique and Anya Cockle..... 115
11. The marsupial community
Marie-Laure Guillemin, Martine Atramentowicz and Didier Julien-Laferrrière..... 121

Bongers *et al.* (eds.), Nouragues. Dynamics and plant-animal interactions in a neotropical rainforest.
2001 Kluwer Academic Publishers. Printed in the Netherlands.

12. The avian community: an overview of species composition and guild structure <i>Jean-Marc Thiollay, Mathilde Jullien, Marc Théry and Christian Erard</i>	129
13. The adaptive significance of flocking in tropical understorey forest birds: the field evidence <i>Mathilde Jullien and Jean-Marc Thiollay</i>	143
14. Habitat selection, ambient light and colour patterns in some lek-displaying birds <i>Marc Théry and John A. Endler</i>	161
15. Distribution and life histories of amphibians and reptiles <i>Marga Born and Philippe Gaucher</i>	167
16. Fishes of the Arataye river and their space-time organization <i>François J. Meunier and Thierry Boujard</i>	185

PART IV. FRUGIVORY AND SEED DISPERSAL

17. Relationships between seed dispersal and behavioural ecology <i>Pierre Charles-Dominique</i>	191
18. Frugivory and seed dispersal by three neotropical primates: impact on plant regeneration <i>Catherine Julliot, Bruno Simmen and Shuyi Zhang</i>	197
19. Frugivory and seed dispersal by bats <i>Pierre Charles-Dominique and Anya Cockle</i>	207
20. Frugivory and seed dispersal by Kinkajous <i>Didier Julien-Laferrrière</i>	217
21. Frugivory and seed dispersal by terrestrial mammals <i>François Feer, Olivier Henry, Pierre-Michel Forget and Marc Gayot</i>	227
22. Vegetarian species in the bird community with an emphasis on frugivory and seed dispersal <i>Christian Erard and Marc Théry</i>	233

PART V. FOREST DYNAMICS AND RECRUITMENT

23. Tree-falls and canopy gaps: patterns of natural disturbance <i>Peter J. van der Meer and Frans Bongers</i>	243
24. The dispersal and recruitment of Cyclanthaceae and <i>Philodendron</i> (Araceae) understorey root-climbing vines <i>Anya Cockle</i>	251
25. Post-dispersal seed removal in four frugivore-dispersed tree species <i>Pierre-Michel Forget, François Feer, Stéphanie Chauvet, Catherine Julliot, Bruno Simmen, Françoise Bayart and Elisabeth Pagès-Feuillade</i>	265
26. Scatterhoarding and tree regeneration <i>Patrick A. Jansen and Pierre-Michel Forget</i>	275

27. Effects of tree height and light availability on plant traits at different organisation levels <i>Frank J. Sterck, Toon Rijkers and Frans Bongers.....</i>	289
---	-----

APPENDICES

1. Floristic Checklist of the Nouragues area <i>Pierre Belbenoit, Odile Poncy, Daniel Sabatier, Marie-Françoise Prévost, Bernard Riéra, Patrick Blanc, Denis Larpin and Corinne Sarthou.....</i>	301
2. Practical guide to the palms <i>Jean-Jacques de Granville.....</i>	343
3. Mammals of the Nouragues and Lower Arataye areas <i>François Feer and Pierre Charles-Dominique.....</i>	351
4. Bird species (from Nouragues inselberg to Arataye River) <i>Jean-Marc Thiollay, Mathilde Jullien, Marc Théry and Christian Erard.....</i>	357
5. Amphibian and reptile species at the Nouragues Nature Reserve <i>Marga Born and Philippe Gaucher.....</i>	371
6. Fishes of the Arataye river <i>François J. Meunier and Thierry Boujard.....</i>	381
