

Master Thesis online

All theses of the MSc programmes of Wageningen University have to be uploaded, preferably as a PDF file to the Wageningen UR Digital Library from 1 October 2009 on. This digital storage of MSc theses makes them more easy publicly available and is necessary for the quality assurance of the theses and study programmes.

It is up to the involved chair and student to decide whether a thesis will be made public or not. When uploaded to the library, there are options to publish the thesis now, in 3, 6, 9, 12 months or never. Of course the mark and assessment form will not be publicly available.

Please check the desired options below.
