Explanation of the conditions in the flow chart:

1. Nationality requirement: membership of one of the groups of persons as defined in Article 2.2 of the Student Grants and Loans Act 2000 (WSF 2000), or having Surinamese nationality (see appendix 1).

2. Residence requirement: resident in the Netherlands, Belgium, Luxembourg or one of the federal states of North Rhine-Westphalia, Lower Saxony or Bremen of the Federal Republic of Germany. A student with a place of residence in the Netherlands must be enrolled in the municipal database (GBA). A student with a place of residence in one of the neighbouring countries / federal states must prove such address by producing an official document from the relevant municipality.

3. Prior possession of an equivalent diploma: If a student registering for a bachelor's degree study programme has already obtained a bachelor's or master's degree or if a student registering for a master's degree or unified *ir* study programme has already obtained a master's or equivalent degree. In the case of a linkage student, when enrolling for a linkage programme the student must have obtained a master's degree or equivalent degree. Such a degree/diploma must have been awarded by a funded Dutch traditional university or university of applied sciences and entered in the Central Record of Enrolments for Higher Education (CRIHO). In practice, these will be diplomas awarded after 1990.

4. Linkage student: Student who is enrolled in a linkage programme giving admission to an MSc-programme. Enrolment in a linkage programme is seen as enrolment in a BSc-programme.

5. Two study programmes at the same time at WU:

A student who before obtaining a bachelor's or master's degree has begun a second bachelor's or master's degree at WU. Such student may during the academic year in which he/she completes this first study programme, continue upon payment of the statutory or statutory increased fee level. He/she may then enrol for the institute tuition fees 1, whether or not increased due to falling behind as described under 7. (*This provision applies to students who enrol for a second study programme at the same time as the first before 1 September 2013 and provided that there has been continuous enrolment with WU*). Tuition fee 1 is only applicable during the nominal length of the second programme.

6. Second study programme at WU (sequential)

A student who after obtaining a bachelor's or master's degree has enrolled before 1 March 2011 for a second bachelor's or master's degree study programme at WU. (*The maximum length of enrolment under this condition is equal to the nominal length of the course programme calculated from 1 September 2010 or from the date of first enrolment after 1 September 2010 and provided that there has been continuous enrolment with WU*).

7. Student who has fallen behind:

In the case of statutory fee, a student is fallen behind when:

- o at the time of his/her enrolment/re-enrolment for a WU bachelor's degree study programme he/she has, since 1991, been enrolled already for four or more study years for any degree programme in Dutch higher education
- o at the time of his/her enrolment/re-enrolment for a WU master's degree study programme having a statutory study load of 60 credits, he/she has been enrolled already for two or more study years for any master's degree programme in Dutch higher education;
- o at the time of his/her enrolment/re-enrolment for a WU master's degree study programme having a statutory study load of 120 credits, he/she has been enrolled already for three or more study years for any master's degree programme in Dutch higher education;
- o at the time of his/her re-enrolment for a unified *ir* study programme, he/she has been enrolled already for six or more study years in Dutch higher education.

These are the most common forms of falling behind, for other forms see article 7, section 45b WHW. The number of years of enrolment is calculated by adding the enrolments on September, 30 in any year since 1991 and the division over bachelor's or master's phase conform the calculations by DUO/CRIHO. When re-enrolling for a master's programme, the years of enrolment in a unified *ir* programme are counted and reduced with three years.

When institutional fee 1 is applicable, article 7 section 45b WHW is applied similarly.

8. Partner of WU PhD candidate

A student who is the spouse or partner (as proved by a notarial cohabitation contract) who is enrolled as a Wageningen UR PhD candidate (*only relevant for the period during which the spouse/partner is connected with Wageningen UR as a PhD candidate and only if this is the first bachelor's or master's programme of the student*).

9. Special fees: see article 4.5

5 Examination fees

- 5.1 Examination fees will be paid by those who enrol as an *extraneus* for a study programme. The examination fees equal the tuition fees that such person would have had to pay when enrolled as a student.

6 Research fee

- 6.1 Students who enrol for the first time for an MSc study programme and are subject to the institute tuition fees 3, will pay before beginning of the study programme a Research fee of 1,400 euros. This fee covers the direct costs of the research (e.g. materials or travel and lodging costs in fieldwork) of the student for internship or thesis in his/her master's study programme. Following the study programme unused fees will be refunded to the student or to his/her sponsor, if any.

7 Reduction in, exemption from and refund of tuition fees

7.1 Reduction in tuition fees

A student who enrolls in the course of an academic year shall have his/her tuition fees reduced by one-twelfth for each month of that academic year that he/she was not enrolled.

- d. The student supplies an original BBC from the institute of his/her first enrolment.

- b. The student is eligible for payment of the institutional tuition fees at Wageningen University.
- c. The student supplies an original BBC from Van Hall Larenstein.

The institutional tuition fees of WU are reduced by the amount of the tuition fees paid to VHL.

7.4 Refunding of tuition fees

A student whose enrolment is terminated pursuant to Article 3 sections 2, 3a or 3c may be refunded the tuition fee. *Extranei* are not entitled to be refunded examination fees. Any refund will be set off against with outstanding instalments of the tuition fees and/or other financial claims against the student.

- a. For a student liable to pay the statutory tuition fee or the institutional fee 1 (basic fee or raised fee), the amount of the refund will be 1/12 of the tuition fees owed for each complete month following termination of enrolment. No refund will be made if enrolment is terminated as of 1 July or 1 August.

- b. For a student liable to pay institutional tuition fees 2 or 3, the amount of the refund will be 1/12 of the tuition fees owed for each complete month following termination of enrolment. No refund will be made if enrolment is terminated as of 1 July or 1 August unless the termination of enrolment is the result of graduation.
- c. In the event of the death of a student during an academic year the amount of the refund will be 1/12 of the tuition fees owed for each complete month following his/her death.
- d. In the case of enrolment for two or more study programmes at the same time at WU, whereby an exemption from tuition fees is granted in respect of the first study programme, a refund is only possible if enrolment for all study programmes is terminated at the same time.

8 Other provisions

8.1 Hardship clause

In extremely exceptional circumstances, the Executive Board may make exceptions to the provisions of these regulations in favour of a student. Such circumstances might arise if the application of a regulation would lead to a compelling case of unfairness. A request under this clause must be made in writing and supported as far as possible by documentary evidence. Application of this hardship clause may not result in any reduction in, or exemption from, the statutory tuition fees except as provided for by Article 7.48 sections 1 to 7 WHW.

8.2 Compensation

A person who is not enrolled but who makes use of the education and/or examination facilities of Wageningen University is liable to pay compensation to Wageningen University of up to the highest level of institute tuition fees pursuant to Article 15.2 WHW. To enrol, the applicant must then satisfy the conditions set out in Article 1 of these regulations. In that case, possible results obtained in the period of non-enrolment, are not valid and cannot lead to exemptions.

8.3 Penalty

A person who is not enrolled but who makes use of the teaching and/or examination facilities of Wageningen University may be liable to pay a second-category penalty pursuant to Article 15.3 WHW.

8.4 Closure of WUR account

In the event that tuition fees are not paid on time or at all, Wageningen University will close the WUR account of the student by means of a suspensive measure two weeks following the first formal warning. In the event of termination of enrolment of a student during the academic year, Wageningen University will close the student's WUR account two weeks following such termination of enrolment.

8.5 Implementation of the enrolment decision

The head of the Student Services Centre is responsible for the implementation of the provisions of this enrolment regulations. In cases not covered by this regulations, any decision will be taken by the head of the Student Services Centre.

8.6 Objection

A formal objection may be filed with the faculty, addressed to the Executive Board, against any decision taken pursuant to this resolution within six weeks of receipt of such decision. Notice of the right to object shall be contained in the decision of the Executive Board. The procedure for appeal is laid down in the Student Charter.

8.7 Term of Validity

These regulations are valid for the academic year 2012-2013, except where any parts of these regulations become invalid in the interim as a result of any changes in the law, or if the

Executive Board, following consultation with the Student Council, decides on any interim amendment.
