

MINI-SYMPOSIUM - MONDAY 24 NOVEMBER 2014

VENUE: Wageningen Campus - building 107 - RADIX WO.1

8.45	Arrival		
9.00 – 9.25		Erik Limpens WU - Molecular Biology	Intracellular accommodation of microbes inside plant cells; a common program?
9.25 – 9.50		Tijs Ketelaar WU – Cell Biology	Localization and functions of the vesicle tethering exocyst complex in plants
9.50 – 10.15		Eric Schranz WU - Biosystematics	A novel approach for multi-domain and multi-gene family identification provides insights into evolutionary dynamics of disease resistance genes in core eudicot plants
10.15 – 10.45	Coffee break		
10.45 – 11.15		Frank Takken UvA - Molecular Plant Pathology	The <i>Fusarium oxysporum</i> effector Six8 manipulates plant immunity through association with the transcriptional co-repressors TPL and TPR1.
11.15 – 11.45		Weixing Shan Northwest A&F University - Yangling, China	Cleavage-mediated regulation of gene expression by tRNA-derived small RNAs in the oomycete plant pathogen <i>Phytophthora</i> .
12.00	Lunch		

PhD DEFENSE

VENUE: Aula Wageningen University

13.30 – 15.00 Yu Du
15.00 – 16.00 Break
16.00 – 17.30 Yan Wang

registration is for **free**
but if you want to attend please send an e-mail
to ali.ormel@wur.nl before Thursday 20 November
