

UNIVERSITY OF  
GOTHENBURG

## Become a Master's student!

Would you like to study in an environment with cutting edge facilities, top class researchers and close vicinity to nature? Join one of our Master's programmes! The Faculty of Science offers 20 challenging, multi-disciplinary two-year Master's programmes, taught in English.

Studying science at the advanced level will give you the ability to think critically, manage scientific methods and communicate science.

### Master's programmes in Natural Sciences, Mathematics and Conservation

- Atmosphere, Climate and Ecosystems
- Biodiversity and Systematics
- Biology
- Chemistry
- Complex Adaptive Systems
- Conservation
- Conservation with Specialization in Conservation of Cultural Heritage Objects
- Earth Sciences
- Ecotoxicology
- Environmental Sciences
- Genomics and Systems Biology
- Geography
- Marine Science
- Mathematical Sciences
- Molecular Biology
- Organic and Medicinal Chemistry
- Physical Oceanography
- Physics
- Sea and Society
- Sustainable Production and Utilization of Marine Bioresources

### Best Welcome Service in Europe

We take care of our new students. In the International Student Barometer 2019, the University of Gothenburg received the highest marks in Europe and fifth globally when it comes to arrival and how the students are welcomed.

Application deadline for  
Master's programmes:  
**15th of January**

Apply through:

[gu.se/en/study-in-gothenburg](http://gu.se/en/study-in-gothenburg)

The University of Gothenburg ranks amongst the top 2 in Sweden and top 35 worldwide in the field of Biological Sciences\*

\*according to ShanghaiRanking's Global Ranking of Academic Subjects 2020.

# Welcome to the University of Gothenburg!

If you are looking for a place where you are encouraged to speak your mind and take an active part in your learning, if you share beliefs and values like equality and sustainability, and if you want to study in a great city close to enchanting Swedish nature, then we might be the right place for you.

## Gothenburg

- 2nd largest city in Sweden
- beautifully situated on the west coast
- a population of 570,000 in the actual city
- 1 million in the greater Gothenburg area.

Everything is close by in Gothenburg. In fact, most things are within walking or cycling distance. The sea and several beaches are within a couple of kilometres from the city, as are extensive nature reserves and outdoor recreation areas. The beautiful archipelago with its many islands is a short trip away.

*"Gothenburg wins again in 2019! For the fourth year in a row, Gothenburg is the world's leading sustainable destination. Global Destination Sustainability Index is an international ranking of the sustainability performance of different destinations."*

## The University of Gothenburg

Students: 49 000  
Female employees: 59%  
Faculties: 8  
Research students: 1800

## Exchange studies at the Faculty of Science

Are you interested in doing an exchange at the University of Gothenburg? Welcome! Every year more than 1000 students from all over the world choose the University of Gothenburg for their exchange.

If your home university has an exchange agreement with the Faculty of Science you can choose to study one or two semester with us. We offer high quality courses in all the major subject areas of the natural sciences, mathematics and conservation.

### Our subjects

Astronomy and Physics, Biology, Chemistry, Cultural Conservation, Earth Sciences, Environmental Sciences, Marine Sciences, Mathematics, Molecular Biology

### Semester dates

**Autumn semester:** End of August – Mid-January

**Spring semester:** Mid-January – Beginning of June

### Accommodation

The University offers student rooms and apartments to exchange students. Please note that housing cannot be guaranteed.

For more info, please visit [gu.se](http://gu.se) or contact: [studenthousing@gu.se](mailto:studenthousing@gu.se)

Students are expected to take a majority of their courses in the subject area and department specified in the exchange agreement with their home university.
